Waterford Plating Company Ltd
Application for a Review of the Integrated Pollution Prevention and Control Licence for
a Surface Treatment Facility, Unit 605/606
Northern Industrial Estate, Waterford.

Dear Sir/Madam,

I refer to you letter date 15 May 2007 (attached) concerning the review of the existing licence Register No. P0280-01 in accordance with Article 15 of the Environmental Protection Agency (Licensing) Regulations 2004.

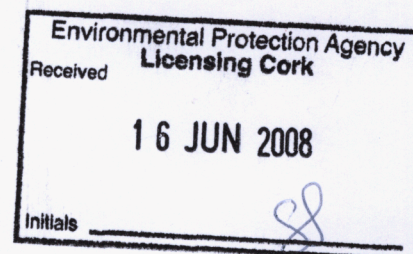

In accordance with the guidelines therein, I enclose an original and two hardcopies, and 2 CD-ROM copies of the application for an IPPC licence review in respect of an additional spray booth to operations carried out at the surface treatment facility. A third CD-ROM contains geo-referenced files in dwg format as per the guidelines.

The activity, which is an activity under Class 12.3 *The surface treatment of metals and plastic materials using an electrolytic or chemical process where the volume of the treatment vats exceed 30m³.*

A cheque for €3,174 is also enclosed as the appropriate application fee. We will be pleased to answer any queries that may arise in connection with this application.

Yours Faithfully,

Environmental Consultant
