Re: Waste Licence Application for proposed Integrated Recycling Facility at Corranure, Co. Cavan by Oxygen Environmental Ltd.

Dear Sir/Madam,

Please find enclosed a Waste Licence Application and accompanying Environmental Impact Statement for the development of an Integrated Recycling Facility at Corranure landfill in Co Cavan. A cheque in the amount of €40,000 is attached in respect of the application fee.

The Waste Licence Application is presented in one volume.

Included is one original and two copies of the Waste Licence Application and 2 copies on CD.

The Environmental Impact Statement (EIS) is presented in four parts, namely:

- Non-technical summary
- Main EIS Report
- Appendices
- Drawings

We have enclosed three hard copies of the EIS and 18 soft copies of the EIS on CD as required.

In September 2007 Cavan County Council entered into a Contract for Sale Agreement with a third party private waste management firm, Oxygen Environmental Ltd, whereby Cavan County Council agreed to sell certain lands in the townlands of Corranure and Lismagratty subject to the necessary licences and planning permissions being in place. The lands to be sold subject to the contract terms include Cell 3 and Cell 4 at Corranure Landfill which are currently licensed under the existing Waste Licence W0077-02.

Denis Cremins

I.S. EN ISO 9002

The Agreement includes for a sharing of leachate and landfill gas infrastructure by both parties with the landfill gas flare units and the leachate storage tank and lagoon remaining in their existing locations on lands to be transferred to Oxigen Environmental Ltd. under the terms of the Contract for Sale Agreement.

In September 2007 Cavan County Council also entered into a Concession Agreement with Oxigen Environmental Ltd. to allow Oxigen Environmental Ltd. operate the existing landfill facility as an interim arrangement until the contract of sale is completed or terminated.

In September 2008 Cavan County Council and Oxigen Environmental Ltd. both entered into a separate legal contractual agreement whereby both parties agree to offer the EPA joint and several liability in respect of any environmental issue relating to the Cell 2 / Cell 3 Interface Area as defined by the attached drawing DG 0020-01 Rev F01.

Yours Sincerely,

Joan Harrington
Oxigen Environmental Ltd.
