Re: Mr. Binman Waste Licence Application

Dear Mr. Leahy,

With regards to your waste facility, Mr. Binman, I refer to the waste application for the proposed increase in waste acceptance from 87,500 tonnes per annum to 200,000 tonnes per annum (including domestic, commercial and C&D waste streams). It is the Agency's view that an Environmental Impact Statement should accompany your waste licence application for this intensification of activities. Please respond by 30th September 2008 with a programme for the submission of same.

In connection with the above requirements, the waste licence application will need to be supported by the correct application fees. May I direct you to Part 1 of the Second Schedule of S.I. 395 of 2004. You will have to select the appropriate disposal class that relates to the activities carried out at your facility.

Yours sincerely

Yvonne Furlong
Inspector
