

CLARE COUNTY COUNCIL
COMHAIRLE CONTAE AN CHLÁIR

29 January 2008

Attn: David Burke,
HSE & Compliance Manager,
ENVA,
Smithstown Industrial Estate,
Shannon,
Co Clare.

Dear Mr. Burke,

Further to your letter of 9th January 2008, Clare County Council is in a position to allow ENVA increase its ELV's to the levels detailed in the accompanying table.

The discharge flow can increase to 250m³ per day with a maximum of 20m³ per hour.

These ELV's can remain in place until December 2010 at which time they can be re-assessed. However, if in the intervening period ENVA's Waste Licence is reviewed, all ELV's will be examined and new limits may need to be agreed.

If you require any further information, please contact Cathal Bordie on 065 6846331.

Yours sincerely,

Frances McNamara,
Staff Officer,
Environment & Emergency Services Directorate.
