

1. GENERAL

1.1 Introduction

This form is for the following purposes under the Waste Management (Collection Permit) Regulations S.I No. 820 of 2007 and the Waste Management (Collection Permit) Amendment Regulations S.I No 87 of 2008 (hereafter referred to as the Regulations);

- (a) The making of an application for a single region waste collection permit; or
- (b) The making of an application for a multi region waste collection permit; or
- (c) The making of an application for a Review of a waste collection permit instigated by the Nominated Authority; or
- (d) The making of an application for a Review of a waste collection permit instigated by the permit holder.

The Guidance Manual and application form are available to download from the (Insert Local Authority Name and weblink) or from www.epa/wastepermit

In order to make the application process as efficient as possible it may be necessary for the relevant nominated authority to contact the applicant or a representative for the applicant while processing the application. The application contact person must have a good knowledge of the application form and the detail within. For this reason it is recommended that the application contact person should be the person who has completed the application form and any relevant supporting information.

Who do I apply to ?

An application for a waste collection permit for a single region shall be made to the Nominated Authority in the region where the waste is being collected. An application for a waste collection permit in more than one region must be made to the nominated authority in the region where the principal waste collection activities are proposed to take place.

What is a principal waste collection activity ?

A principal waste collection activity is defined in the Regulations as the greatest extent of waste collection activities, by either the number of premises served or the quantity of waste to be collected.

1.2 Pre-application consultation

It is recommended that pre-application consultations or discussions with the relevant nominated authority are undertaken before a formal submission of any of the above types of applications, particularly with regards to the determination of a principal waste collection activity for multi region applications.

It is also recommended that the applicant familiarise themselves with the application form and Regulations and Bye-laws (Eg Skip Bye-Laws, Household Waste Bye-Laws for example) before beginning to complete the application. In addition applicants need to be aware of the requirements of the relevant Waste Management Plan/s for the region or regions and the National Hazardous Waste Management Plan 2008-2012.

WASTE COLLECTION PERMIT APPLICATION FORM

Waste Management Plans are available to download from all local authority websites. The National Hazardous Waste Management Plan 2008-2012 produced by the EPA is available at:

<http://www.epa.ie/downloads/pubs/waste/haz/>

If you need to contact << nominated authority to insert authority and division name dealing with collection permits here>> concerning your waste collection permit Application, please use the numbers provided in the table below.

<<Insert nominated authority Contact Name/s and Numbers Here>>

1.3 Guidance on the Application Form

An application for a new waste collection permit is made under Article 5 of the Regulations. The contents of an application and the information to accompany an application are specified in Article 7.

A nominated authority may request a waste collection permit holder under Article 23 of the Regulations to review a collection permit.

A waste collection permit holder may submit an application to the nominated authority to review a permit under Article 24 of the Regulations.

Both an application for a new permit or a review of a permit will be made in accordance with the requirements of Articles 5,6 and 7.

The application form is designed in such a way as to set out questions in a structured manner and not necessarily in the order presented in the Regulations

All sections in this application form may not be relevant to every application, or applicant. However, the applicant should look carefully through the complete form and provide all relevant information. If any question is considered 'not applicable' this should be stated in full. The use of the abbreviations (e.g., N.A. or dash) should be avoided.

Additional attachments may be included to supply any further information supporting the application. Attachments should be clearly numbered, titled and paginated and must contain the required information as set out in the application form.

Consistent measurement units must be used throughout the application form.

1.4 Additional Documents to be Included

Documents and information which must be supplied with the application are presented as a checklist in **Appendix 1** of this application form. The applicant is advised to complete the checklist and submit with the application. Any applicant who does not submit all of the relevant documents will be contacted by the nominated authority to supply the missing documents within a set timescale.

WASTE COLLECTION PERMIT APPLICATION FORM

In the case of a multi region application a copy of the complete application must be submitted to each relevant local authority.

NOTE: nominated authority to insert required numbers of copies of all documentation. 5 is the legal requirement, but some local authorities request more.

1.5 About these Guidance Notes

These guidance notes have been developed to assist applicants in the preparation of an application for a single region or multi region waste collection permit or a review of collection permits under the Regulations.

This document does not purport to be and should not be considered a legal interpretation of the provisions and requirements of the Waste Management (Collection Permit) Regulations S.I No. 820 of 2007 and the Waste Management (Collection Permit) Amendment Regulations S.I No.87of 2008.

While every effort has been made to ensure the accuracy of the material contained in this document, the nominated authority assumes no responsibility and gives no guarantees, undertakings and warranties concerning the accuracy, completeness or up-to-date nature of the information provided herein and does not accept any liability whatsoever arising from any errors or omissions.
