**Re: Waste Licence Application W0250/01 - Kerry Central Recycling Facility Ltd.
- Response to Article 14 Notice**

Dear John,

We refer to Waste Licence Application W0250/01 and to the associated Article 14 (2)(b)(ii) Notice issued by the Agency on the 6th May 2009.

Acting on behalf of the applicant, RPS is currently addressing the items set out in this notice for submission to the Agency.

It has been noted that the Agency has requested that the information should be submitted within six weeks of the date of the Notice (17th June 2009).

On behalf of the applicant, RPS wishes to notify the Agency that the response to this Notice will be delayed in its submission date and will require an additional three weeks in order to comprehensively respond to the issues raised. The delay relates to a response to one particular item which requires substantial additional input to design detail and specification requirements.

We therefore anticipate that a response to the Article 14 Notice will now be submitted to the Agency no later than Wednesday 8th July 2009.

We trust this submission date is agreeable with the Agency and if you have any further requests please do not hesitate to contact the undersigned.

Yours sincerely,

Maeve Walsh
