### **Attachment B.3**

Please find attached the most recent documentation relating to planning at the proposed development site:

1) Notification from the Planning Authority of their decision to grant planning permission for change of use of existing warehouse from a timber frame construction facility to an in-vessel composting facility and the removal of an open ended lean-to.

This refers to the original application for a 10,000t/annum composting facility. This application is currently under appeal.

2) Acknowledgement letter from the Planning Authority regarding receipt of application for planning permission for change of use of an existing warehouse building from a timber frame construction facility and for permission to extend the existing structure to accommodate a biogas/composting facility (New application for a 50,000t/annum biogas/composting facility).

This application is significantly different from the original planning application and is currently under review by the Planning Authority.

3) Copies of the EIS are also enclosed separately with this application.

For inspection purposes only.  
Consent of copyright owner required for any other use.

LIMERICK COUNTY COUNCIL

PLANNING AND DEVELOPMENT ACTS 2000-2007

NOTIFICATION OF DECISION TO GRANT

Greenport Environmental Ltd.  
c/o Michael Punch & Partners  
97 Henry Street  
Limerick

**Planning Register Number:** 08/1633  
**Valid Application Received:** 06/08/2008  
**Further Information Received Date:** 27/02/2009

In pursuance of the powers conferred upon them by the above-mentioned Act, Limerick County Council has by Order dated **25<sup>th</sup> March, 2009** decided for the reason set out in the First Schedule hereto, to GRANT **PERMISSION** for development of land in accordance with the documents submitted namely: **-change of use of existing warehouse from a timber frame construction facility to an in-vessel composting facility and the removal of an existing open ended lean-to at Durnish Foynes** subject to the 9 condition(s) and the reasons for the imposition of the said condition(s) as set out in the Second Schedule.

Signed on behalf of said Council \_\_\_\_\_  
for DIRECTOR OF SERVICES  
PLANNING & DEVELOPMENT

Date: **25<sup>th</sup> March, 2009**

If there is no appeal to An Bord Pleanála a grant of permission shall be issued as soon as may be but not earlier than 3 working days after the expiration of the period for making of an appeal (see footnote).

THIS NOTICE IS NOT A GRANT OF PERMISSION AND WORK SHOULD NOT COMMENCE UNTIL PLANNING PERMISSION IS GRANTED.

**NOTE:**

An appeal against a decision of a planning authority under the provisions of the Planning & Development Acts, 2000-2007 may be made to An Bord Pleanála at any time before the expiration of the appropriate period and on payment of the appropriate fee, by an applicant for permission or any person who made submissions or observations in writing in relation to the planning application. An appeal by a person who made submissions or observations must be accompanied by the acknowledgement of receipt of the submissions or observations from the planning authority. Any such appeal must be made in writing and received by the Board within 4 weeks beginning on the date of the making of the decision by the planning authority. The appeal must be fully complete from the start otherwise it will be invalid. It is very important to note that any appeal referrals under the 2000 to 2007 Planning & Development Acts which are not accompanied by the correct fee will be invalid.

/P.T.O.

The scale of fees payable to An Bord Pleanála in respect of appeals is set out hereunder:

Case Type	Appeal received on or after 10 <sup>th</sup> December 2007
<b>Planning Acts</b>	
a. Application for strategic infrastructure development or a request to alter the terms of such development already permitted or approved.	€100,000
b. Appeal against a decision of a planning authority on a planning application relating to commercial development, made by the person by whom the planning application was made, where the application relates to unauthorised development.	€4,500 or €9,000 if EIS involved
c. Appeal against a decision of a planning authority on a planning application relating to commercial development, made by the person by whom the planning application was made, other than an appeal mentioned at (b).	€1,500 or €3,000 if EIS involved
d. Appeal against a decision of a planning authority on a planning application made by the person by whom the planning application was made, where the application relates to unauthorised development, other than an appeal mentioned at (b) or (c).	€660
e. Appeal other than an appeal mentioned at (b), (c), (d) or (g)	€220
f. Application for leave to appeal.	€110
g. Appeal following a grant of leave to appeal.	€110
h. Referral	€220
i. Reduced fee (payable by specified bodies).	€110
j. Submissions or observations (by observer) on strategic infrastructure development applications, appeals and referrals.	€50
k. Request from a party for an oral hearing.	€50

Submissions or observations on appeals made by third parties must be received by the Board within 4 weeks from the receipt of the appeal by the Board and the fee in this case is €50. Development consisting of the provision of two or more dwellings is classed as commercial development for the purposes of an appeal.

Should you wish to make an appeal, the following documents are available on [www.lcc.ie](http://www.lcc.ie) and [www.pleanala.ie](http://www.pleanala.ie)

- A Planning Appeal Form/Checklist and
- A Guide to making a Planning Appeal.

Appeals should be addressed to An Bord Pleanála, 64 Marlborough Street, Dublin 1.

**PLANNING REGISTER REFERENCE NUMBER: 08/1633**

**FIRST SCHEDULE**

Having regard to the nature of the proposed development, it is considered that subject to compliance with the conditions as set out in the Second Schedule, the proposed development would be in accordance with the proper planning and sustainable development of the area.

**SECOND SCHEDULE**

1. This permission is subject to the submissions of the 15<sup>th</sup> December, 2008 and 27<sup>th</sup> February, 2009

Reason - In order to clarify the development to which this permission applies.

2. This permission shall be valid for a period of 5 years from the date of issue of the final grant of permission. The use of the site as an in-vessel composting facility shall cease at that time, unless prior to the end of this period planning permission shall have been granted for their retention for a further period.

Reason - In order to further assess the visual, traffic safety and other consequences of the development in the interests of proper planning and development and in the light of changing circumstances.

3. The waste type acceptable on the site for the proposed use shall be restricted to source segregated organic waste. No organic fines generated from mechanical treatment shall be accepted at the facility

Reason - In the interests of orderly development, amenity and proper planning and sustainable development.

4. Details of the Leachate Control System and the Air Management System shall be agreed in writing with the planning authority prior to installation and commencement of development

Reason - In the interests of orderly development, amenity and proper planning and sustainable development

5. The wheels and underside of all construction traffic leaving the site shall be cleaned, as required, to prevent soiling of public roads. A wheel washing facility, including water jets or other approved cleansing method shall be provided close to the site exit. In the event that any public roads become soiled by construction traffic from the site, these roads shall be cleaned immediately.

Reason – In the interests of the proper planning and sustainable development of the area.

6. The discharge from the wheel-wash shall pass through a silt trap and an interceptor prior to discharge off site

Reason - In the interest of the proper planning and sustainable development of the area.

7. The waste delivered to the facility shall be transported in specially designed sealed units to be agreed in writing with the Planning Authority prior to installation and commencement of development

Reason - In the interest of the proper planning and sustainable development of the area.

8. Equivalent sound levels attributable to all on-site operations associated with the proposed development shall not exceed a level of 55 dB(A)<sub>L<sub>AFT</sub></sub> over a continuous one-hour period between 0800 hours and 2000 Monday to Friday and 0800 hours and 1400 hours on Saturday, inclusive, when measured outside any dwellinghouse in the vicinity of the site. Sound levels shall not exceed 45dB(A)<sub>L<sub>AFT</sub></sub> at any other time.

Reason – In the interests of amenity and proper planning and sustainable development.

9. Details of advertising signs shall be submitted to the Planning Authority for its consent within one month of the date of this permission. No signs of any kind shall be erected unless first consented to, in writing, by the Planning Authority.

Reason - In the interests of visual amenity and to allow the Planning Authority to assess the design of all proposed signs.

Limerick

MPP - (L)		
JOB No.		
6 JUL 2009		
ATTN	SK	Alc
SEEN		

Dear Sir/Madam,

I wish to acknowledge receipt of your application for PERMISSION for change of use of an existing warehouse building from a timber frame construction facility and for permission to extend the existing structure to accommodate a biogas/composting facility. The proposed development includes demolition of ancillary storage structures, changes to an existing entrance to the site and for the upgrade of existing services and waste water treatment system. The proposed development includes for gas/water storage structures and biofilters (An EIS is being lodged with this application. A waste licence will be required and separately applied for in respect of this development) at Durnish Foynes, received on 08/06/2009.

I wish to inform you that under the terms of Article 30 of the Planning & Development Regulations 2001, **the Planning Authority cannot make a decision on an application until 5 weeks has elapsed from the date of receipt of a valid application.** Therefore your application will not be assessed until this time at the earliest. The Planning Authority would request that you do not contact the office during the five week period for updates on how the application is progressing. The time saved by the Planning Office staff in not having to respond to queries within this period will ensure that more time is available for the actual processing of applications and ensure an improved level of customer service to all applicants.

There is now a Planning Application Search Facility available on Limerick County Council's website at [www.lcc.ie](http://www.lcc.ie)

Yours faithfully,

TIS

STAFF OFFICER  
PLANNING & DEVELOPMENT

Article of 26 of Planning and Development Regulations 2001 states that the validity of the application is subject to the site notice complying with the Regulations and that an inspection of the site may be carried out within the minimum period of 5 weeks for

## **Attachment B.4 Sanitary Authority**

As discussed in the pre-application meeting with the EPA, the only sewage from the office area will be treated to a P6 Envirocare unit prior to discharge to the sewer within the Port Authority Area. It was confirmed that this is considered effluent from domestic sewage. Therefore this section is not applicable.

## SITE NOTICE

### APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE

Greenport Environmental Ltd., The Red Church, Henry Street, Limerick, hereby gives notice that an application for a Waste Licence will be submitted to the Environmental Protection Agency (EPA) for the premises at Durnish, Harbour Road, Foynes Co. Limerick, National Grid Reference R 126067.91 E, R 151834.62 N.

The development will consist of a fully enclosed in-vessel composting/biogas facility and ancillary infrastructure. The infrastructure on-site is all directly or indirectly related to these activities and includes the following facilities: raw material reception area, mixing equipment, composting/biogas tunnels, screening equipment, dispatch areas, vehicle wash, associated air extraction system, scrubber, biofilters, technical area, bunded fuel storage, gas and liquid storage tanks, CHP units and laboratory to process up to 50,000 tonnes/annum of biodegradable waste.

In accordance with the third and fourth schedules of the Waste Management Acts 1996-2003 the classes of activity concerned are:

#### Third Schedule

6. Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 7 to 10 of this Schedule.

13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

#### Fourth Schedule

2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes) (**Principal Activity**)

3. Recycling or reclamation of metals and metal compounds.

4. Recycling or reclamation of other inorganic materials.

13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than the temporary storage, pending collection, on the premises where such waste is produced.

An Environmental Impact Statement (EIS) will be submitted with this application to the EPA.

A copy of the application for a waste licence, EIS, and such further information relating to the application will be available for inspection or purchase at the headquarters of the Agency as soon as practicable after receipt by the EPA Headquarters, Johnstown Castle Estate, Co. Wexford.

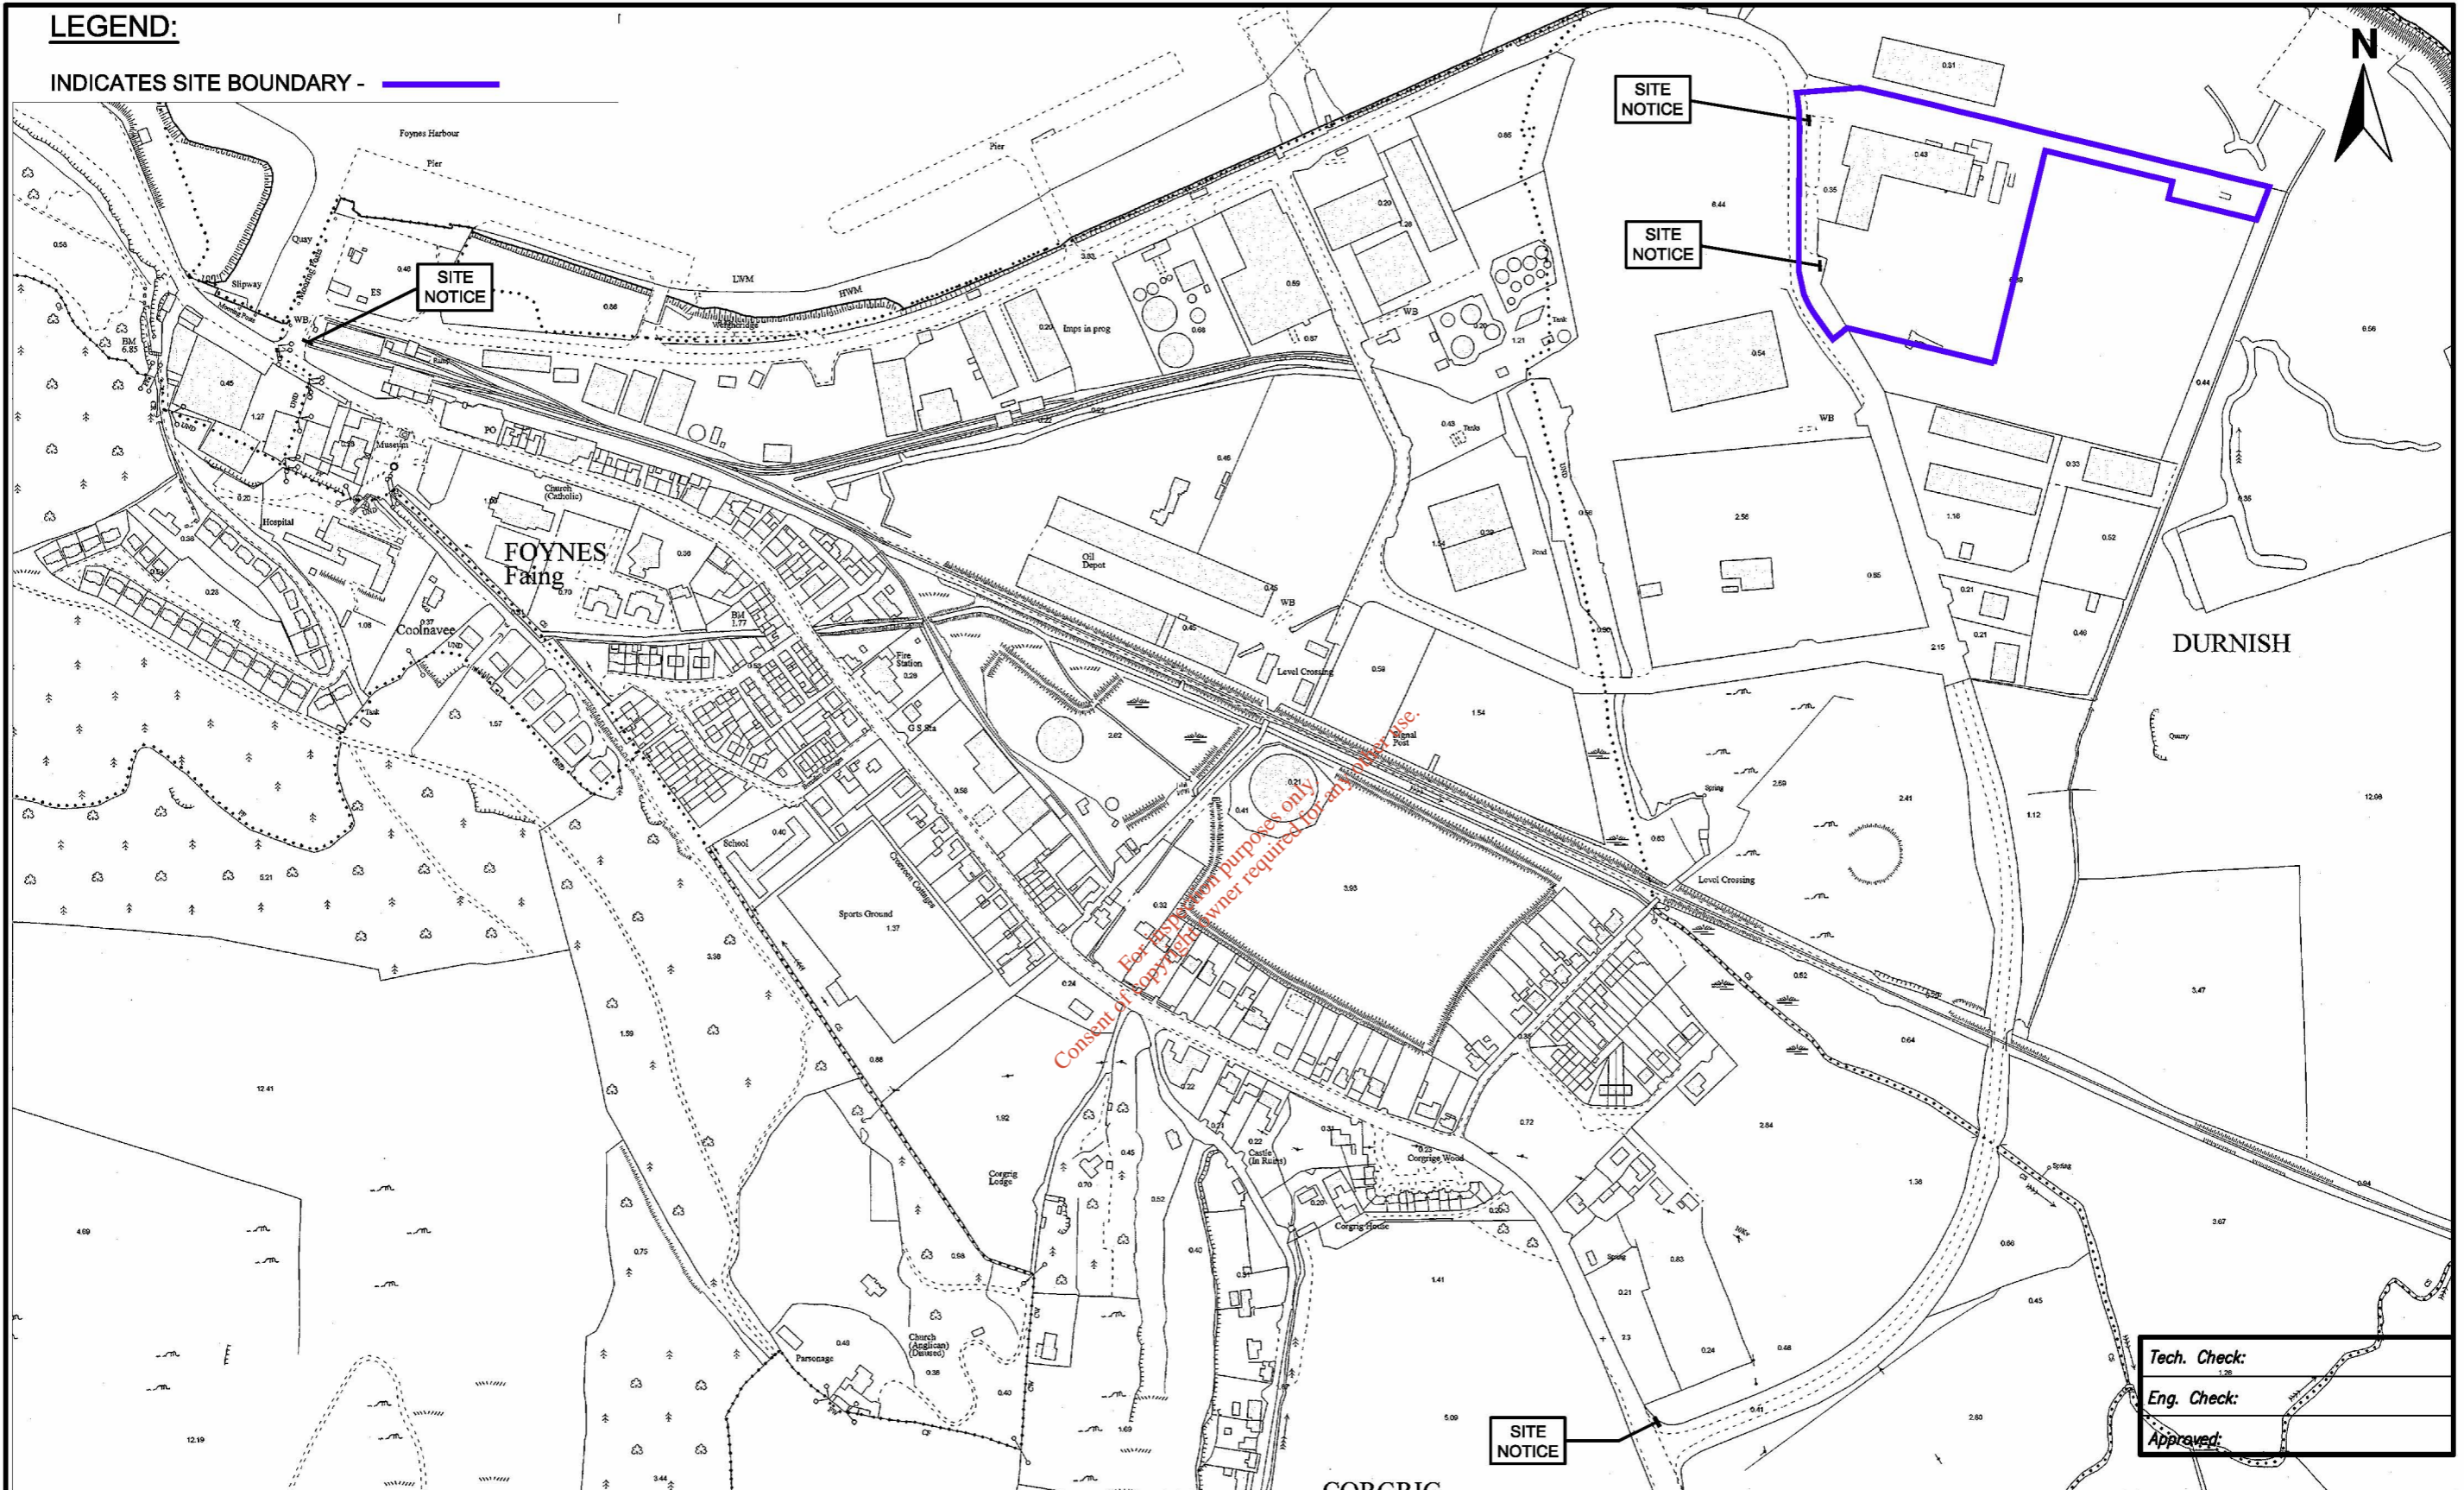

Signed: Margaret Egan

Planning Notices

**CLONMEL BOROUGH COUNCIL:** Significant Further Information and Revised Plans have been submitted to the above planning authority in relation to a planning application Ref. 08/101 by Dunnes Stores who is seeking permission for construction of an extension to their existing shopping centre to include 2,294m<sup>2</sup> of retail area, stock rooms, entrance lobbies, extension to existing carpark, signage, full site development and the construction of a new entrance and roundabout onto Davis Road at Dunnes Stores, Davis Road, Clonmel, Co. Tipperary. This application may be inspected, or purchased at a fee not exceeding the reasonable cost of making a copy, at the offices of Clonmel Borough Council, Parnell Street, Clonmel, Co. Tipperary, opening hours are 9am to 1pm and 2pm to 5pm Monday to Friday, excluding public holidays. Submissions or observations may be made to the Planning Authority in writing and on payment of the prescribed fee (€20.00) within 2 weeks of the date of receipt by the Authority of the newspaper notice and notice or in the case of a planning application accompanied by an application within 5 weeks of receipt of such notices by the planning authority. No further fee shall be payable where a submission/observation has been paid and the further submission is accompanied by a copy of the previous acknowledgement.

**FINGAL COUNTY COUNCIL:** The Minister of Education and Science is applying for permission for development on a site C2.6 Hectares located on the land adjacent to Rathbeale Road, Oldtown, Swords, County Dublin. The development will consist of the demolition of the existing single storey structure and the construction of two number two storey primary school buildings with integrated two storey shared community facility. Each school consists of 16 classrooms; support teaching spaces and ancillary accommodation, with the shared community facility containing indoor sports hall, office accommodation and shared changing facilities with total floor areas for the development of c.5899m<sup>2</sup> including community centre. The site works to the school grounds will consist of the provision of cycle storage, ball courts, bin stores, landscaping and boundary treatment with one main vehicular/pedestrian entrance and separate exit through the grounds and all other associated site works. The works to the remainder of the site consist of the provision of 67 car parking spaces, drop-off and pick-up facilities including a bus or coach lay-by. The planning application may be inspected, or purchased at a

Planning Notices

**FINGAL COUNTY COUNCIL:** The Minister of Education and Science is applying for permission for development on a site C1.2 Hectares located on the land adjacent to Ballisk Common, Donabate, County Dublin. The development will consist of the construction of a new two storey primary school with 16 classrooms; support teaching spaces and ancillary accommodation with a total combined floor area of c.2356m<sup>2</sup>. The site works to the school grounds will consist of the provision of cycle storage, ball courts, bin stores, landscaping and boundary treatment with one main temporary vehicular/pedestrian entrance through the VEC school grounds and all other associated site works. The works to the remainder of the site consist of the provision of 50 car parking spaces, drop-off and pick-up facilities including a bus or coach lay-by and the provision of a unit sub. The planning application may be inspected, or purchased at a fee not exceeding the reasonable cost of making a copy, at the offices of the planning authority during its public opening hours and that a submission or observation in relation to the application may be made to the authority in writing on payment of the prescribed fee (€20) within the period of 5 weeks beginning on the date of receipt by the authority of the application.

**CORK COUNTY COUNCIL:** The Trustees of the Diocese of Cork and Ross, Redemption Road, Gork on behalf of Ballygarvan National School are applying for permission for development on a site C1.14 Hectares located on the land adjacent to School Road, Ballygarvan, Co. Cork. The development will consist of the construction of a new two storey primary school with 16 classrooms; support teaching spaces and ancillary accommodation with a total combined floor area of c.2498m<sup>2</sup>. The site works to the school grounds will consist of the provision of cycle storage, ball courts, bin stores, landscaping and boundary treatment with one main vehicular/pedestrian entrance and all other associated site works. The works to the remainder of the site consist of the provision of 32 car parking spaces, drop-off and pick-up facilities including a bus or coach lay-by. That the Planning Application may be inspected or purchased, at a fee not exceeding the reasonable cost of making a copy, at the offices of the Planning Authority during its public opening hours and a submission or observation in relation to the application may be made to the Authority in writing on payment of the prescribed fee within the period of 5 weeks beginning on the date of receipt by the Authority of the application.

Public Notices

APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE  
Greenport Environmental Ltd., The Red Church, Henry Street, Limerick, hereby gives notice that an application for a Waste Licence will be submitted to the Environmental Protection Agency (EPA) for the premises at Durnish, Harbour Road, Foynes Co. Limerick, National Grid Reference R 126067.91 E, R 151834.62 N.  
The development will consist of a fully enclosed in-vented composting/biogas facility and ancillary infrastructure. The infrastructure on-site is all directly or indirectly related to these activities and includes the following facilities: raw material reception area, mixing equipment, composting/biogas tunnels, screening equipment, dispatch areas, vehicle wash, associated air extraction system, scrubber, biofilters, technical area, banded fuel storage, gas and liquid storage tanks, CHP units and laboratory to process up to 50,000 tonnes/annum of biodegradable waste.  
In accordance with the Third and Fourth Schedules of the Waste Management Acts 1996-2003 the classes of activity concerned are:  
Third Schedule:  
6 Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 and paragraphs 7 to 10 of this Schedule.  
13: Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.  
Fourth Schedule:  
2 Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes) (Principal Activity)  
5 Recycling or reclamation of metals and metal compounds.  
4 Recycling or reclamation of other inorganic materials.  
13: Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than the temporary storage, pending collection, on the premises where such waste is produced.  
An Environmental Impact Statement (EIS) will be submitted with this application to the EPA.  
A copy of the application for a waste licence, EIS, and such further information relating to the application, will be available for inspection or purchase at the headquarters of the Agency as soon as practicable, after receipt by the EPA Headquarters, John-

Planning Department,  
Limerick County Council,  
County Hall,  
Dooradoyle,  
Co. Limerick.

July 27<sup>th</sup> 2009

**Re: Application to the Environmental Protection Agency for a Waste Licence**

A chara,

I hereby give notice to the Planning Department that an application for a Waste Licence will be submitted to the Environmental Protection Agency by Greenport Environmental Ltd, The Red Church, Henry Street, Limerick, for the premises at Durnish, Harbour Road, Foynes, Co Limerick, National Grid Reference R 126067.91 E, R 151834.62 N.

The development will consist of a fully enclosed in-vessel composting/biogas facility and ancillary infrastructure. The infrastructure on-site is all directly or indirectly related to these activities and includes the following facilities: raw material reception area, mixing equipment, composting/biogas tunnels, screening equipment, dispatch areas, vehicle wash, associated air extraction system, scrubber, biofilters, technical area, bunded fuel storage, gas and liquid storage tanks, CHP units and laboratory to process up to 50,000 tonnes/annum of biodegradable waste.

In accordance with the third and fourth schedules of the Waste Management Acts 1996-2003 the classes of activity concerned are:

Third Schedule

6. Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 7 to 10 of this Schedule.

13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

Fourth Schedule

2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes) (**Principal Activity**)

3. Recycling or reclamation of metals and metal compounds.

4. Recycling or reclamation of other inorganic materials.

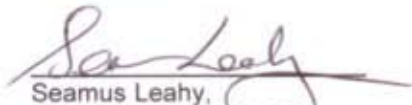

13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than the temporary storage, pending collection, on the premises where such waste is produced.

An Environmental Impact Statement (EIS) will be submitted with this application to the EPA.

A copy of the application for a waste licence, EIS, and such further information relating to the application will be available for inspection or purchase at the headquarters of the Agency as soon as practicable after receipt by the EPA Headquarters, Johnstown Castle Estate, Co. Wexford.

Should you have any queries about this application please do not hesitate to contact me. I would appreciate it if you could confirm the receipt of this notification in writing.

Yours sincerely,

Seamus Leahy,  
Group Environmental Manager,  
Tel. 061 359053

## **Attachment B.7**

### **Principal Activity**

In accordance with the Fourth Schedule of the Waste Management Acts 1996-2003, the Principal Activity will be:

2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological processes).

### **Other Activities**

In accordance with the Fourth Schedule of the Waste Management Acts 1996-2003, the other activities will be:

3. Recycling or reclamation of metals and metal compounds.

4. Recycling or reclamation of other inorganic materials.

13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

In accordance with the Third Schedule of the Waste Management Acts 1996-2003, the other activities will be:

6. Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 7 to 10 of this Schedule.

13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

### **Brief Technical Description of Principal Activity:**

The primary activity will be to anaerobically and aerobically digest organic waste for the purpose of recycling the material into useful materials – compost, stabilised biowaste for landfill capping/land remediation, biogas for electrical and heat energy generation, and residual materials for further recycling.

Incoming material will be delivered to the reception area within the facility. It will be thoroughly homogenised, and then transferred immediately into one of the anaerobic processing tunnels.

The feedstock will first be treated biologically in a dry anaerobic digestion tunnel system in order to produce biogas which is converted to electrical and heat energy. The material will be removed from the first stage vessel, mixed

with a fraction of incoming fresh material and processed through the aerobic vessel composting and maturation system.

The composted materials will be mechanically screened to produce a refined composted organic fraction (<12mm) which will undergo a further composting/pasteurisation step (70°C for 1 hour) prior to dispatch off-site.

The oversize materials will be screened further to separate materials such as plastics, metals, glass and stones for further recycling off-site.

### **Brief Technical description of Other Activities:**

#### Fourth Schedule:

##### 3. Recycling or reclamation of metals and metal compounds.

Description: residual metals may be recovered from the organic materials during the screening process. Metals recovered from the process will be dispatched off-site for further recycling.

##### 4. Recycling or reclamation of other inorganic materials.

Description: Residual inorganic materials including glass may be recovered during the screening process. It is expected that the majority of these will be suitable for further recycling off-site.

13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

Description: Upon acceptance at the facility all feedstock waste will be temporarily stored prior to processing.

#### Third Schedule:

6. Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 7 to 10 of this Schedule.

Description: In the unlikely event that the compost product or biowaste are not suitable for re-use the product may be sent to landfill for disposal. In the event that other residual materials generated from the process are unsuitable for recycling/recovery off-site, they will be sent offsite for disposal.

13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

Description: Residual materials or rejected materials unsuitable for recovery/recycling off-site will be stored temporarily in the dispatch area prior to dispatch off-site for disposal.
