For the attention of Ms. Ewa Babiarczyk, Inspector, Environmental Licensing Programme

Re: License Review-W0191-01-Holmestown Waste Management Facility

Dear Ms. Babiarczyk,

I refer to your letter of 27 July 2009 as detailed above requesting further information on the above license review.

Wexford County Council intention, in planning constructing and operating the Holmestown Landfill Facility is to provide a void space for 900,000 tonnes of compacted municipal solid waste and to place same in accordance with the profile set by the An Bord Pleanala grant of planning and the EPA license.

Based on an allowance for 25% for daily cover material and achieving 0.8 tonnes/m³ compaction ratio, I estimate an overall volume capacity requirement of 1,406,250 cubic meters over the operational life of the facility.

Should you require further information please contact me or Dan McCartan.

Yours sincerely,

Brian Galvin
Senior Engineer
