

ATTACHMENT E2 – EMISSIONS TO SEWER

There will be no emissions to public (Local Authority) sewers associated with the operation of the proposed waste recovery facility.

Roadstone Dublin Ltd. has an existing wastewater effluent (septic) tank at its existing landholding at Milverton which is located within the application site. This septic tank is located immediately south of the site offices at the location shown in Figure B2.3 of Attachment B2. The septic tanks services 2 toilets, 2 washhand basins and a sink unit at the site office.

Details of connections and populations served are tabulated below:

Location	Toilets (No.)	Washbasins (No.)	Sinks (No.)	Employees (No.)
Site Office	2	2	1	8-10

Note: *This number of employees is a transient number and not all use the facility on a continuous basis

The septic tank at the application is regularly maintained and appears to be functioning adequately
