

Ms. Orla Harrington,  
Licensing Unit,  
EPA Regional Inspectorate Cork  
Inniscarra  
Co. Cork

11 September 2009

**WASTE LICENCE APPLICATION (W0267-01)  
HI-VOLT IRELAND LIMITED**

Dear Ms Harrington,

I am acting under the instruction of my client Hi-Volt Ireland Limited (Hi-Volt). Further to our conversation on Monday (7<sup>th</sup> September 2009) and a further conversation with Marie O'Connor, please see below.

Hi-Volt are operating under a Waste Permit (Ref Number: WP/TN/53) for the facility at Ballyduff, Thurles, Co. Tipperary and has an established business recovering waste batteries within Ireland.

As you are aware, Hi-Volt have made an application to the EPA for a waste licence to continue their current operations and expand to include other waste streams. As to our conversation on Monday, the decision on this application has been delayed.

In the meantime, Hi-Volt would like to request a letter from the EPA to confirm that the facility can operated under the requirements of WP/TN/53 until a decision on the licence has been issued. Please issued this letter as to the address below.

Please contact the undersigned if you have any questions.

Yours sincerely,

*Bridin Mulhall*
