Richview,
Clonskeagh Rd.,
Dublin 14.

Re: Application for Discharge Licence Ref No D0034-01,
Request for Further Information

Dear My Byrne,

We acknowledge receipt of yours of 13-10-09 requesting further information to be submitted in support of our application for a discharge licence, (Ref No D0034-01).

Bearing in mind the amount of previously submitted detailed information by Dublin City Council over a time period of almost two years and the time frames now specified in your letter, we have immediately commenced the task of assembling and collating this latest requested information.

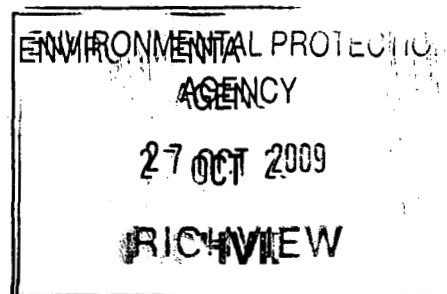

In order to ensure that we provide the most comprehensive and up to date set of data, while acknowledging that key information is still evolving and key financial decisions at government level have yet to be crystallised in the forthcoming Budget in December, we request that, in accordance with the Waste Water Discharge (Authorisations) Regulations 2007, the deadline for our submission will be as per suggested in your letter, ie. 10-01-10.

This time frame will allow for greater clarity vis-à-vis major infrastructural investment decisions.

We shall liaise with you on an on-going basis to keep you abreast of progress on this issue.

Should you have any queries on this matter please contact Mr. Gerry Doherty, telephone number 01-2222930.

M. Ryan
Divisional Engineer
