Dear Sir/Madam,

The Pfizer Ireland Pharmaceuticals facility located at Askeaton, Co. Limerick, operates as a partnership (under Irish law) which is wholly-owned ultimately by Pfizer Inc. Pfizer Inc., is the world's largest research-based pharmaceutical company. Global revenues for 2008 were US\$48.3 billion with net income, after tax of US\$16.4 billion. Pfizer Inc., in common with many large multinational companies, provides central funds to its operating units through standard financial mechanisms. Pfizer Inc.'s financial strength is clearly adequate to address the contingent liabilities outlined in the attached RMP/ELRA (Attachment F(1)) for the Pfizer Ireland Pharmaceuticals facility located at Askeaton, Co. Limerick.

The Pfizer Inc., financial report for 2008 (which includes Financial Review, Consolidated Financial Statements and Notes to Consolidated Financial Statements) is provided for reference in order to help better understand Pfizer from a financial standpoint, and demonstrate that the organisation can provide for this expenditure (refer to Appendix 1). If any or all of the environmental liabilities were to arise at the Pfizer Ireland Pharmaceuticals Askeaton facility, an application for central Pfizer Inc., funding would be applied for in order to underwrite these liabilities. The Pfizer Ireland Pharmaceuticals Askeaton facility will therefore have the resources in terms of financial inputs to address any or all of the environmental liabilities should they arise.

Trusting this is acceptable to the Agency. Should you, however, have any queries please do not hesitate in contacting me.

Yours sincerely,

Mr Paul Duffy

For and on behalf of CP Pharmaceuticals International CV, represented by and acting through Pfizer Manufacturing LLC and Pfizer Production LLC and Pfizer Ireland Pharmaceuticals and AHP Manufacturing BV together trading as Pfizer Ireland Pharmaceuticals
