Subject: Scotch Corner Review W0020-01
Attachments: EPA license review - January 13th 2010.tif

Ewa,

Sorry I missed your call this morning. At this stage we intend proceeding with a partial review (W0020-01) as detailed in the attached file. We also raised the considerations listed in the attached file in our submission to the EPA dated 13th November in relation to License review W0020-02 but as you explained this could not be addressed under that particular review which was initiated by the EPA.

Any queries, give me a call on 047-30592,

Regards

Kieran Duffy
Executive Engineer

**Re: Review of existing Waste Licence Reg No W0020-01 FOR Scotch
Corner Landfill, Letterbane, Annyalla, Castleblayney, Co. Monaghan.**

Dear Ewa,

I refer to our recent correspondence regarding the above.
I can confirm that we wish to proceed with A "**Partial**" review of our landfill
license. As indicated previously Monaghan County Council is **not** seeking to
increase its licence tonnage limit from 39,500 tonnes to 59,250 tonnes. As a
result, Monaghan County Council is of the opinion that an EIS is consequently
not required as the licence tonnage limit is to remain at 39,500 tonnes.

Under the partial review, which we are now proposing, we are applying under
Article 12 (3) (a) Waste Management (Licensing) Regulations for a review of
Waste License 20-1 on the following grounds:

1. The final contours of the landfill site need to be revised and levels adjusted due to ambiguity of levels in Condition 4 of the Waste Licence (20-1). The final contour plan does not take the Material Recovery Facility (MRF) into account and therefore requires revision. Also, the Waste License states "the finished level of the facility shall not exceed 114m OD (Malin Head)". This final level was determined based on the assumption that the landfill site was originally 97.8m OD (Malin Head). The true original level of the site was 124.8m OD. It is therefore suggested that the finished level of the facility be adjusted accordingly and not exceed 144.2m OD (Malin Head).
2. Monaghan County Council is also requesting that the EPA consider amending Condition 3 of the Waste Licence to include for the provision of a Mechanical Biological Treatment (MBT) plant. It is proposed that this facility will cater for the removal of recyclables and fines from the residual bin. The compostable fines will undergo appropriate in-vessel composting at the Scotch Corner landfill site.
3. The North East Waste Management Plan (2005-2010) recommends the introduction of a 3 bin collection service. The proposed EU Biowaste Directive also promotes this. To adequately facilitate the treatment of organic waste and green waste, it is requested that EPA consider

Monaghan County Council, Council Offices, The Glen, Monaghan, Ireland.
Comhairle Contae Mhuineacháin, Oifigí an Chontae, Bóthar an Ghleanna, Muineachán.
Tel.: 00353 47 30600 | Fax: 00353 47 82739 | Email: info@monaghancoco.ie

amending Condition 5.8.2.2, which states "that the quantity of biodegradable waste to be composted shall not exceed 2,000 tonnes per annum". It is requested that this figure be increased to 5,000 tonnes per annum to facilitate the potential treatment of waste collected via the 3 bin system, MBT organics, and green waste collected at the MRF on site.

The above 3 considerations were also raised in our submission to the EPA dated 13th November 2009 regarding W0020-02.

Should you require any clarification or any further information please contact me on 047-30592.

Yours Sincerely,

Kieran Duffy
Executive Engineer
Monaghan County Council
