To The Secretary,

I wish to make the following observations regarding the above waste application.

Our property borders the proposed new road which will serve the new BioPark. This will be only a very short distance from the field where we grow potatoes and vegetables. Therefore we would be concerned about pollution. We also keep our three animals there.

According to the Environmental Impact Statement BioPower Ltd claim that due to the small scale of the operations the Anaerobic Digester would only require a waste permit from the local authority.

We would therefore ask that The EPA take our concerns into consideration when they come to make their decision.

Yours Sincerely,

Margaret McGovern.
