**Re: Waste Licence Application from ABPower Roscommon Ltd for facility at
Ballinphuill, Tibohine, Castlerea, Co. Roscommon**

A Chara,

We refer to your recent letter in relation to the above-mentioned development. Outlined below are the nature conservation recommendations of the Department of the Environment, Heritage and Local Government.

The proposed development is not situated within or adjacent to any sites designated for nature conservation purposes. However, adequate controls should be in place to ensure that no polluting substances, effluent or discharges can enter the aquatic system, either during development or subsequent operation of the facility.
