Licence Application No.W0274-01, ADPower Roscommon, Ltd.

Dear Sir/Madam,

With reference to Licence No.W0274-01, I wish to register my objection.

The project started out a couple of years ago as a Rape-seed oil Bio-diesel production operation.

However, recently it appears to have 'morphed' into an all out waste-disposal operation in the Ballinphuill area.

Some of the potential affiliated hazards of this waste-disposal process would include – odour, greenhouse gas emissions, water pollution, vermin – to mention but a few.

There is no research into how a project of this kind would impact on the surrounding population and what the health risks might be.

I would not willingly submit myself to be included as a statistic in any such future research. And I will certainly NOT sacrifice my children or family members to such a fate.

We rely on you to defend our rights to a clean environment and trust you will act in the best interests of the people living in Tibohine.

Regards,

P.Morisroe
