To Whom It May Concern,

I am writing to you in relation to an application for a waste licence by ADPower Roscommon Ltd in respect of a facility at Ballinphuill, Tibohine, Castlerea, Co. Roscommon.

This 25,000 tonne of agricultural slurries and agricultural biomass is **NOT** wanted by the community of Tibohine or the surrounding areas and I strongly believe the disadvantages of this strongly outweigh any advantages. The proposed site is across the road not even a mile away from a National School and it is extremely close to numerous houses where many of the people in them have lived for many many years. This facility has been applied for by greedy people who only see money **NOT** to benefit our community. How can a smelly dump enhance our community??

If this facility is as innocent as it is being portrayed to be by a few then why were the community misled and why weren't we informed about the plans many many months ago. It is a disgrace and this community will not sit back and watch as our community is polluted by cow slurry, pig slurry, intestinal waste and fatty waste. If this AD Power company gets the go ahead then I propose we dump a pile of shit outside their homes and see how they like it.

I sit my Leaving Certificate tomorrow and have better things to be doing with my time than writing to you about this waste of a space of a company and their incredible cheek that they have to apply for permission for such a facility in our village. So if they want to build a dump why dont they do it where they are situated and **NOT** on our doorstep!

I appeal to you as a young adult not to give this application the go ahead as it will destroy our community with smells and increased traffic on our roads.

Sincerely,
Claire Kerrane.
