Submission to Administration, Office of
Climate, Licensing and Resource Use,
Environmental Protection Agency, Herengracht,
PO Box 3000, Johnston Castle Estate,
County Wexford.

Re Waste licence application No. WI 274-01

I object to the granting of above licence on
the grounds of human health

I base my objection on the fact^{that} certain
elements such as metals (mercury), chemicals
(antibiotics), contained in the waste materials
listed here are non biodegradable i.e.
EWC codes 220201, 220101, 220203, 220204,
220249, 220301, 220302, 220309,

I further submit that certain elements
such as pesticides used in agriculture and
horticulture may be non biodegradable
i.e. EWC codes 220101, 220301, 220304, 220305,
220349, 220201

In answer to my question at a public meeting in
Tubehine on 12th June 10 a spokesman for AD Power
Boscammont confirmed that all residue
of the anaerobic plant will be spread on land,
thus re-introducing it to the human food chain.

Signed - Kathleen Linn
Carrigrohilly
Tubehine Castle, Co. Ros.
on 16th June 2010.
