Re: Waste Licence Application No W0274-01

I submit that a country's greatest resource is  
its people. All aspects of community life  
hinge upon the interaction of people. This  
is particularly true in the case of a small  
rural community such as Tibohine.

A basic tenet of social science is the right to own  
private property. Attached thereto are rights, privileges  
and duties. The latter enforces the duty to respect  
the rights and privileges of others. 'Do to others as  
you would like others to do to you' is a practical  
guideline of behaviour.

The persons or companies pursuing generation expansion  
cannot be allowed to invade the concern for the  
legitimate rights of others, and cannot justify  
the means. There must be civilised communication  
and openness in the coming to awareness of interests.  
Bully-boy tactics cannot be allowed to hold sway.  
ADPewer Reservoirs Ltd has shown utter disregard  
for the viewpoints of local residents. The company's  
blatant arrogance is confirmed by their declaration  
that they are "determined that construction and ground works  
will begin at the site in Bullinphull before the  
end of the summer, with or without the support  
of the local people."

The EPA has a duty to show integrity in dealing with  
this app. No W0274-01. The EPA is the arbiter  
of "resource use" as its name implies. The people  
are the resource here, they deserve justice!
