Subject: Proposed Biopark

Dear Sir/Madame,

I am writing to you in relation to an application for a waste licence by ADPower Roscommon Ltd in respect of a facility at Ballinphuill, Tibohine, Castlerea, Co. Roscommon.

I would like to make it clear that this facility is **NOT** needed nor is it necessary in our small community. I personally see **NO** advantages of it for anyone here except for lining the pockets of a few greedy people. It was very clear from the meeting I attended last Saturday night in our local community centre that this company care little for the people in this village. The very few people promoting this facility could **NOT**

answer the questions that the local people raised and the ones that they did answer well they were aswell if they just sat there for the responses we got!

This company ADPower are from Cork and let me tell you if there was anything advantageous about it they would not be trying to set it up half way up the country! Why offload it to our community if its so great??

These types of facilities need to be set up as close to where the waste is being generated i.e on site.

Yours Truly,
Patricia Kerrane.
