

Submission to: Sub No 68  
The Administration, Office of Climate, Learning, Resource ~~use~~,  
Environmental Protection Agency, PO Box 3000, Johnstown Castle Estate, Co. Wick

Ref No. W0274-01

There is a contradiction in information contained in the "Application to the Environmental Protection Agency for a Waste Licence by AD Power Res Ltd" and that (information) declared on the "EPA Waste Application Form".

Page 2, paragraph 2 of the former states, "The National N5 Road bounds the southern perimeter of the land under the applicant's ownership"

Page 14 of the latter says, "State the interest of the applicant in the land which is subject to the application." the answer, (given by ticking a box) declares Prospective Purchaser.

The fact is that the E.P.A. are left with no option but to scrap the application as this contradiction of information definitely renders it untenable.

Signed: Kathleen Lami (Mrs)
