

RECORD OF MEETING

Date and Venue of meeting	14 July 2011, EPA HQ
Type of meeting	Status update meeting on waste licence application register no. W0258-01
Name of Licensee	Murray Waste Recycling Ltd.
Location	Coolatore, Ferns, Co. Wexford
People present at meeting	Mr. Brian Meaney, Ms. Caroline Connell, EPA; Mr. Michael Murray, Facility Manager, Murray Waste Recycling Ltd; Mr. Paul Lynch, Consultant, Enviroglan.
Discussion is related to the following	Progress by the applicant with regard to the submission of the additional information requested by the Agency on 19 April 2010.
Items / matters discussed	<ol style="list-style-type: none"> 1. Murray Waste confirmed that an Environmental Impact Statement (EIS) and planning application are currently being complied in relation to a proposed increase in the facility capacity to 55,000 tonnes. 2. It was clarified that: <ol style="list-style-type: none"> i. The waste facility permit remains valid until such a time as a decision is taken by the Agency to grant or refuse a waste licence, as stated in the Agency's correspondence of the 4 July 2011. ii. A revised or updated waste licence application is required if the waste acceptance threshold is to be increased taking into consideration all the possible impacts of this change and updating the relevant sections of application, as outlined in the Agency's correspondence of the 19 April 2010. iii. The new extension is approximately 18,000ft² and that on completion this summer it will have sufficient capacity for the revised waste acceptance threshold. 3. Murray Waste are to keep up-to-date with EIA legislation as changes to the current legislation are likely on foot of the recent ECJ judgement. Submission of additional information may also be required as part of the waste licence application on foot of the European Communities (Waste Directive) Regulations 2011.
Information requested	None
Documents handed over	None
Any other comments	Murray Waste are to keep the Agency informed of how they intend progressing the waste licence application.
