**NOTIFICATION OF A DECISION UNDER SECTION 34 OF THE PLANNING & DEVELOPMENT ACT 2000**

PLANNING REGISTER NUMBER: 06/1710  
APPLICATION RECEIPT DATE: 11/08/2006  
FURTHER INFORMATION DATE: 21/12/2006

In pursuance of the powers conferred upon them by the above-mentioned Act, Kildare County Council have by order dated 25/01/2007 decided to **Grant PERMISSION** to the above named for development of land, in accordance with the documents submitted namely:-  
**Construction of glass recycling plant at Site 4 Osberstown Business Park Naas subject to 49 conditions** set out in the Schedule attached.

The reason for the imposition of the said conditions are also included. If there is no appeal against the said decision a **grant of permission** in accordance with the decision will be issued after the expiration of the period within which an appeal may be made to An Bord Pleanala (see footnote). It should be noted that until a grant of permission has been issued the development in question is NOT AUTHORISED and work should not commence.

Date: 25/01/2007

Signed: \_\_\_\_\_

Senior Executive Officer Planning  
Kildare County Council

---

Any appeal against the decision of a Planning Authority under Section 37 of the planning & Development Act 2000 may be made to An Bord Pleanala, 64 Marlborough Street, Dublin 1. First and third party objections must be received by the Bord within 4 weeks of making the decision by the Planning Authority. The appeal must be fully complete from the start - you are not permitted to submit any part of it later, even within the time limit.

Any appeal made to An Bord Pleanala will be invalid unless accompanied by the correct fee within the statutory appeal period. I.e.

- a) Appeal by 1st party relating to commercial development where the application relates to unauthorised development €1900
- b) Appeal by 1st party relating to commercial development other than (a) above - €630
- c) Appeal by 1st party where the application relates to unauthorised development, other than (a) and (b) above - €630
- d) Appeal other than an appeal mentioned at (a), (b) and (c) above - €210

**RE:/ Planning Permission is sought by Glassco recycling Ltd for the construction of a glass recycling plant at this site No. 4 Osberstown Business Park, Naas, Co. Kildare – 06/1710.**

**Schedule 1 -**

Having regard to the nature and design of the proposed development, the character of adjoining development and the zoning of the site, it is considered that, subject to compliance with the conditions attached, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would be in accordance with the proper planning and sustainable development of the area.

**Schedule 2 -**

- 1 The development shall be carried out in accordance with documentation and particulars submitted to the Planning Authority on the 23<sup>rd</sup> of October 2006 and as per revised drawings and documentation submitted to the Planning Authority on the 21<sup>st</sup> of December 2006 except where altered or amended by conditions in this permission.

**Reason:** To enable the Planning Authority to check the proposed development when completed, by reference to approved particulars.

- 2 All service lines and cables servicing the proposed development shall be located underground except where otherwise agreed in writing with the Planning Authority.

**Reason:** In the interest of orderly development and visual amenities.

- 3 During construction the developer shall provide adequate off carriageway parking facilities for all traffic associated with the proposed development, including delivery and service vehicles/trucks. There shall be no parking along the public road.

**Reason:** In the interest of traffic safety.

- 4 The development shall not impair existing land or road drainage

**Reason:** In the interest of traffic safety, and to prevent interference with existing road/land drainage, in the interest of proper planning and development.

- 5 No further development/change of use shall take place on this site without a prior grant of planning permission.

**Reason:** In the interest of orderly development.

- 6 No advertising signs of any kind shall be erected within or adjoining the site, unless such signs constitute exempted development under Part 2, Schedule 2, of the Planning and Development Regulations 2001, without a prior grant of planning permission.

**Reason:** To ensure that the development shall be in accordance with the permission and that effective control be maintained.

7. The proposed unit shall be used for a Glass Recycling purposes only and not for any other purpose without the benefit of a separate planning permission.

**Reason:** In the interest of orderly development.

8. This permission authorises the proposed development and does not relate to any other development not subject of this application whether or not such development would otherwise constitute exempted development.

**Reason:** To avoid any misunderstanding as to the proper construction of this permission.

9. Prior to the commencement of development the applicant shall submit for written agreement of the Planning Authority, a sample(s) of the external finishes that will be used on the structure.

**Reason:** In the interests of visual amenity and orderly development

10. Prior to the commencement of development the applicant shall submit for written agreement for the Planning Authority a detailed and comprehensive landscaping plan that would contribute to a pleasant working environment and also aid visual integration with other sites that will be in future use in the overall development.

**Reason;** In the interest of proper planning and sustainable development

11. The car parking provision for the proposed development shall be that as outlined in drawing No 06107-02 received on the 21<sup>st</sup> of December by the Planning Authority

**Reason;** In the interests of proper planning & orderly development

12. Lines of sight at entrance to the site shall be provided strictly in accordance with the Design Manual for Roads and Bridges.

**Reason:** In the interest of traffic safety.

13. The developer shall erect appropriate warning signage in the vicinity of the proposed entrance for the benefit of all those passing the entrance and those entering and exiting from the site.

**Reason:** In the interest of traffic and pedestrian safety.

14. Building line shall be in line with the adjacent buildings.

**Reason:** In the interest of traffic safety.

15. The applicant shall construct a 2 metre wide footpath along the entire roadside frontage. Location and levels to be to the satisfaction of the Planning Authority.

**Reason:** In the interest of traffic and pedestrian safety.

16. Roads, footpaths and turning areas shall be designed in accordance with the Department of Environment and Local Government "Recommendations for Site Development Works for Housing Areas" (R.S.D.W.H.A.)

**Reason:** In the interest of traffic safety.

17. All footpaths shall be dished at junctions and road crossings to facilitate the disabled.

**Reason:** In the interest of traffic and pedestrian safety.

18. Details of road markings to be submitted to the Planning Authority for approval prior to the commencement of the development.

**Reason:** In the interest of traffic safety.

19. No surface water runoff from the site shall discharge onto the public road.

**Reason:** In the interest of traffic safety.

20. Surface water shall be collected and road gullies shall be provided in accordance with Section 3.19 of the Department of Environment and Local Government "Recommendations for Site Development Works for Housing Areas" (R.S.D.W.H.A.). All gullies shall be fitted with suitable locking type covers or gratings.

**Reason:** In the interest s of proper drainage and traffic safety.

21. Existing land and roadside drainage shall not be impaired and new entrance to the site shall be designed and shaped to ensure the uninterrupted flow of existing roadside drainage.

**Reason:** To prevent interference with existing roadside drainage in the interest of proper development.

22. No development shall take place until the road into the development is complete.

**Reason:** In the interest of traffic safety.

23. Public lighting shall be provided throughout the site to the standards laid down by the E.S.B. and to satisfaction of the Planning Authority.

**Reason:** In the interest of traffic safety.

24. Lighting for all signs shall be erected in such a way so as not to distract or shine into the path of traffic.

**Reason:** In the interest of traffic safety.

25. The proposed sanitary accommodation is ventilated to the outer air in order to provide 3 air changes per hour.

**Reason:** In the interest of proper planning and development.

26. Separate male and female sanitary accommodation shall be provided for staff/workers. (The "Disable WC" may serve as female sanitary accommodation)

**Reason:** In the interest of proper planning and development.

27. The development shall not increase the noise levels at the site boundary by more than 3dBA above ambient noise levels.

**Reason:** In the interest of proper planning and development.

28. All foul sewage, trade effluent and soiled water shall discharge to the public foul sewer system.

**Reason:** In the interest of proper planning and development.

29. Only clean, uncontaminated surface water shall discharge to the surface water system.

**Reason:** In the interest of proper planning and development.

30. All surface water from the carpark areas and service vehicle areas shall pass through adequately sized and sited petrol/oil interceptor(s) before being discharged to the surface water system.

**Reason:** In the interest of proper planning and development.

- 31 (a) Noise from the development shall not give rise to sound pressure levels (Leq 15 minutes) measured at \*noise sensitive locations which exceed the following limits:

- 55 dB(A) between the hours of 0800 and 1800 Monday to Friday inclusive (excluding bank holidays)
- 45 dB(A) at any other time.

(b) There shall be no clearly audible tonal component or impulsive component in the noise emission from the development at any \*noise sensitive location.

Any dwelling house, hotel or hostel, health building, educational establishment, place of worship or entertainment, or any other facility or area of high amenity which for its proper enjoyment requires the absence of noise at nuisance levels.

(c) A detailed Noise Study, with recommendations, shall be carried out by a competent noise/environmental consultant within three months of the development being in full operation. The Noise Study shall be submitted for the consent of the Planning Authority.

**Reason:** In the interest of proper planning and development.

- 32 Applicant shall use "Best Practicable Means" to prevent/minimise noise and dust emissions during the construction and operational phases of the development, through the provision and proper maintenance, use and operation of all machinery all to the satisfaction of the Planning Authority.

**Reason:** In the interest of proper planning and development.

- 33 All wastes produced shall be collected and disposed of in accordance with the Waste Management Acts, 1996 as amended and Regulations made thereunder. Packaging waste shall be segregated in accordance with the Waste Management (Packaging) Regulations 2003, as amended. Areas shall be identified for the storage, treatment and collection of segregated wastes. No burning of waste on site is permitted. Only waste contractors in possession of a valid waste collection permit from Kildare County Council may collect waste from the development.

**Reason:** In the interest of proper planning and development.

- 34 It is necessary to obtain a Waste Permit from Kildare County Council prior to the commencement of works in the facility.

**Reason:** In the interest of proper planning and development.

35. The sewerage system for the development shall be provided in accordance with "Recommendation for Site Development Works for Housing Areas" published by the Department of the Environment and Local Government.

**Reason:** To ensure proper servicing of the development.

- 36 All foul and surface water sewers to be laid in public areas, not in private property and to be provided with heavy-duty manhole covers.

**Reason:** To ensure proper servicing of the development.

- 37 Each separate property shall be connected to the foul and surface water sewers by means its own individual and separate foul and surface water drain.

**Reason:** To ensure proper servicing of the development.

- 38 Surface water disposal shall be designed, constructed and maintained in accordance with Greater Dublin Storm Water Management Policy for Developers. Surface water shall be retained on site using large attenuation restricting flows to minimum to avoid and minimise flooding.

If a stormwater ponds/swales/soakways/detention basins is to be constructed in a residential /commercial areas, its capacity is to be sufficient to store the 1 in 30 year storm event. 1 in 30 year storm event should be used to resize attenuation in accordance with Greater Dublin

Storm water Management Policy for Developers. An emergency overflow is to be provided from the attenuation, capable of passing flows up to the 100 year storm event. Overflow from the site is to be retained within the site area up to 100 year event or as specified otherwise by Kildare County council.

**Reason:** To ensure proper development and minimise flooding

39. Prior to commencement of the development a maintenance agreement to be set up between the developer and a reputable maintenance company in order to maintain the Estate and with particular emphasis on the maintenance of the **surface water attenuation system**. Details of such maintenance agreement to be agreed with the Planning Authority in writing prior to commencement of development.

**Reason:** To ensure proper development and minimise flooding

40. The house/unit shall have its own individual service connection and boundary box. The boundary box shall have a customer access lid, a shut off device/stopcock and an approved leakage flowmeter, such as the standard *Talbot Matrix Meter Box*, or the standard *Industrial Plant WSC-R-CA* unit or similar unit as approved by the Water Services Department.

**Reason:** To ensure proper servicing of the development.

41. A minimum of 24-hour water storage shall be provided.

**Reason:** To ensure proper servicing of the development.

42. All watermains shall be 100m.m. diameter (minimum) EN1452 uPVC pipe, except under roadways where ductile iron pipe (clause K9) shall be used. All watermains shall be looped in order to avoid dead ends. The applicant should liaise with Water Works Section and complies with their requirements.

**Reason:** To ensure proper servicing of the development.

43. Water supply to be metered.

**Reason:** To ensure proper servicing of the development.

44. All toilet cisterns shall incorporate a dual flush function incorporating reduced Flush and full flush options.

**Reason:** In the interest of water conservation and to ensure proper servicing of the development.

45. A grease trap shall be constructed on the waste discharge from the kitchen waste outlets.

**Reason:** To ensure proper servicing of the development.

46. Upon completion of the development the developer shall commission a water audit and leakage survey of the water distribution system, which shall be submitted to the Planning Authority for consideration within three months of the completion of the development.

**Reason:** To ensure proper servicing of the development

47. Petrol/oil/silt separators should be installed on the surface water outfall to minimise pollution

**Reason:** in the interest of public health and to ensure proper servicing of the development

48. The applicant should apply for a water connection permit, sewerage connection permit and a road opening license three months prior to commencement of development.

**Reason:** in the interest of public health and to ensure proper servicing of the development

49. Before development commences the applicant/developer shall pay to Kildare County Council the sum of €54,000 being the appropriate contribution to be applied to this development in accordance with the Development Contributions Scheme adopted by Kildare County Council on 23<sup>rd</sup> February 2004 in accordance with Section 48 of the Planning and Development Act 2000. The amount payable under this condition shall be fully index-linked from the date of grant of permission.

**Reason:** It is considered reasonable that the developer should make a contribution in respect of public infrastructure and facilities benefiting the proposed development

PERMISSION for to extend the site of an existing glass recycling plant to provide additional vehicle parking and external storage areas on land adjoining sites 4 and 5. AT Osberstown Business Park Caragh Rd Naas Co Kildare **IN ACCORDANCE WITH THE PLANS SUBMITTED WITH THE APPLICATION.**

**In pursuance of the powers conferred upon them by the Planning and Development Acts 2000-2007, Kildare County Council have by Order dated 28/04/2009 GRANTED PERMISSION to the above named, for the above development subject to 16 conditions set out in the attached schedule**

Date: 18/08/2009

Signed: \_\_\_\_\_  
Senior Executive Officer, Planning  
Kildare County Council.

**NOTE:** The permission herein granted shall, on the expiration of the period of 5 years beginning on the date of the granting of permission, cease to have effect as regards:

- (1) In case the development to which the permission relates is not commenced during the period, the entire development, and
- (2) In case such development is so commenced, so much thereof as is not completed within that period.

It should be noted that outline permission will cease to have effect after a period of 3 years and also that such permission is subject to the subsequent grant of permission consequent on the grant of permission by the Planning Authority and that until such permission has been obtained to detailed plans of the development proposed, the development is **NOT AUTHORISED.**

**Re: Planning Permission is sought to extend the site of and existing glass recycling plant to provide additional vehicle parking and external storage area on land adjoining sited 4 and 5 Osberstown Business Park, Caragh Road, Naas Co.Kildare. Glassco Recycling Ltd. 09/48.**

**Schedule 1 – Considerations and Reasons on which this Decision is based as required by Article 31 of the Planning and Development Regulations 2001.**

Having regard to the nature and design of the proposed development, and the character of adjoining development, it is considered that, subject to compliance with the conditions attached, the proposed development would not seriously injure the amenities of the area or of property in the vicinity, and would be in accordance with the proper planning and sustainable development of the area.

**Schedule 2 – Conditions**

1.The proposed development shall be carried out in accordance with the documentation received by the Planning Authority on 01.04.2009 and 22.01.2009 except as amended by conditions hereunder.

**Reason:** To enable the Planning Authority to check the proposed development when completed, by reference to approved particulars.

2.Apart from the development authorised by this permission, the development shall be carried out and completed in accordance with the terms and conditions of all previous overall permission relating to this facility, particularly 06/1710, and any agreements entered into thereunder, insofar as these are applicable.

**Reason:** In the interests of the proper planning and sustainable development of the area.

3.The subject site shall be laid out and landscaped in accordance with the site layout plan (drawing number 09 – 01 – 01) received by the Planning Authority on 01.04.2009. The landscaping shall be carried out during the first planting season following the commencement of development on site.

**Reason:** To enable the Planning Authority to check the proposed development when completed, by reference to approved particulars.

4. The bunker walls shall be no more than 3 meters in height.

**Reason:** To enable the Planning Authority to check the proposed development when completed, by reference to approved particulars.

5. During construction the developer shall provide adequate off carriageway parking facilities for all traffic associated with the proposed development, including delivery and service vehicles/trucks. There shall be no parking along the public road.

**Reason:** In the interest of traffic safety.

6. Car/HGV parking spaces shall be in accordance with the requirements of the Kildare County Development Plan.

**Reason:** In the interest of traffic safety.

7. Car/HGV parking shall be monitored and in the event of the Planning Authority deciding that a shortfall in car parking spaces exists, the developer shall provide such extra car parking as the Planning Authority may specify at an approved location adjacent to the site / or within the curtilage of the site.

**Reason:** In the interest of traffic safety having regard to the public road adjacent, and to ensure that adequate car parking facilities are provided on site.

8. All foul sewage, trade effluent and soiled water shall discharge to the public foul sewer system.

**Reason:** In the interest of proper planning and development.

9. Only clean, uncontaminated surface water shall discharge to the surface water system.

**Reason:** In the interest of proper planning and development.

10. All surface water from the carpark areas and service vehicle areas shall pass through adequately sized and sited petrol/oil interceptor(s) before being discharged to the surface water system.

**Reason:** In the interest of proper planning and development.

11. Noise Control

(a) Noise from the development shall not give rise to sound pressure levels (Leq 15 minutes) measured at \*noise sensitive locations which exceed the following limits:

55 dB(A) between the hours of 0800 and 1800 Monday to Friday inclusive (excluding bank holidays)

45 dB(A) at any other time.

(b) There shall be no clearly audible tonal component or impulsive component in the noise emission from the development at any \*noise sensitive location.

**Note: \*Noise sensitive location:**

Any dwelling house, hotel or hostel, health building, educational establishment, place of worship or entertainment, or any other facility or area of high amenity which for its proper enjoyment requires the absence of noise at nuisance levels.

**Reason:** In the interest of proper planning and development.

12. Applicant shall use "Best Practicable Means" to prevent/minimise noise and dust emissions during the construction and operational phases of the development, through the provision and proper maintenance, use and operation of all machinery all to the satisfaction of the Planning Authority.

**Reason:** In the interest of proper planning and development.

13. Existing roadside and land drainage to be maintained by applicant. Alterations to verge levels adjacent to the road edge shall be such that surface water runoff is not impeded. Where water is ponding on the road, gullies to be provided by applicant and taken to adjacent ditch or soakhole. Applicant shall be responsible for ensuring that surface water run-off from the public road is suitably drained onto the site property where necessary

**Reason:** To prevent interference with existing roadside drainage in the interest of proper development.

14. All surface water generated on-site shall be disposed of on-site and not allowed onto the public road.

**Reason:** In the interest of traffic safety.

15. Because the driveway falls towards the public road, runoff shall be collected either by gullies or by precast concrete drainage channels and discharged to suitably sized soakholes located within the site boundary.

**Reason:** In the interest of traffic safety

16. No works are to be constructed within 6 metres of the existing surface water and the public rising main sewer, which runs through the site. The applicant or developer shall determine the exact position of such services on site before development commences and shall submit accurate details of such to the Planning Authority by way of revised site plan. All surface water is to be catered for on site by way of site soakage or other approved method of surface water disposal unless otherwise agreed in writing.

**Reason:** In the interest of proper planning and development.

Dear Sir/Madam,

**Re: Rehab Glassco Ltd, Unit 4 Osberstown Industrial Park, Caragh Road, Naas, Co. Kildare**

Patel Tonra Ltd., Environmental Solutions is acting as environmental consultants to Rehab Glassco Ltd. Rehab Glassco Ltd. operates a glass and can recycling facility at its premises at Unit 4 Osberstown Industrial Park, Caragh Road, Naas, Co. Kildare. The facility operates under Waste Facility Permit from Kildare County Council (register number is WFP-KE-08-0357-01).

Patel Tonra Ltd., Environmental Solutions, on behalf of Rehab Glassco Ltd., is currently preparing an application to the Environmental Protection Agency (EPA) for a Waste Licence for the facility.

The purpose of this letter is to inform the Planning Department of Rehab Glassco Ltd.'s intention to submit an application for a Waste Licence to the EPA. Kildare County Council Environment Department has been made aware of the application to the EPA (correspondence of 21<sup>st</sup> January 2011).

Yours Sincerely  
for Patel Tonra Limited

Ref: Waste Permit No. WFP-KE-08-0957-01

Dear Ms. Corrigan,

We recently submitted an Article 11 request to the EPA in relation to our tonnage intake at our site in Naas. This was necessary as our business has grown significantly in the past 12 months and subsequently our annual tonnage intake now exceeds the 50,000 tonne per annum limit condition of our current permit. As expected the EPA have determined that we require a Waste Licence. I am writing to inform you that we are currently in the process of completing an application for a Waste Licence which we intend to submit within 6 months.

I attach a copy of the letter from the EPA for your information.

I trust this is in order but if you have any queries or need any further information please do not hesitate to contact me.

Yours sincerely,

Zeki Mustafa  
Managing Director

## **APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE**

Rehab Glassco Ltd., Unit 4, Osberstown Industrial Park, Caragh Road, Naas, Co. Kildare, is applying to the Environmental Protection Agency (EPA) for a Waste Licence for a glass and can recycling facility at Unit 4, Osberstown Industrial Park, Caragh Road, Naas, Co. Kildare (National Grid Reference E 296767 N 220379). The site is currently operating as a recycling facility under permit from Kildare County Council (WFP-KE-08-0357-01).

The area of the site and the proposed EPA licensed area is 21,300m<sup>2</sup>. The Main Process at the facility applies a range of state-of-the-art sorting and processing techniques to separate the input material into colour-segregated glass cullet product and cans/metals. The glass cullet is transported off-site for use as a raw material in the glass manufacturing industry. The facility also operates a Drying Plant, which processes the residual glass fraction. The total input to the facility will be up to 150,000 tonnes per annum.

The relevant waste disposal and waste recovery activities, as per the Third and Fourth Schedules of the Waste Management Acts 1996 to 2011 and the Waste Management Licensing Regulations, 2004 (SI 395 of 2004), to which this application relate are:

### ***Licensed Waste Disposal Activities, in accordance with the Third Schedule of the Waste Management Acts 1996 to 2011***

D 15: Storage pending any of the operations numbered D 1 to D 14 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

### ***Licensed Waste Recovery Activities, in accordance with the Fourth Schedule of the Waste Management Acts 1996 to 2011***

R 4: Recycling/reclamation of metals and metal compounds.

R 5: Recycling/reclamation of other inorganic materials, which includes soil cleaning resulting in recovery of the soil and recycling of inorganic construction materials.

R 12: Exchange of waste for submission to any of the operations numbered R 1 to R 11 (if there is no other R code appropriate, this can include preliminary operations prior to recovery including pre-processing such as, amongst others, dismantling, sorting, crushing, compacting, pelletising, drying, shredding, conditioning, repackaging, separating, blending or mixing prior to submission to any of the operations numbered R1 to R11).

R 13: Storage of waste pending any of the operations numbered R 1 to R 12 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

R 5 is the principal activity (relating to glass recycling).

A copy of the Waste Licence Application and any further information relating to the application as may be furnished to the EPA in the course of the EPA's consideration of the application, will, as soon as practicable after receipt by the EPA, be available for inspection or purchase at EPA Headquarters, PO Box 3000, Johnstown Castle Estate, Co. Wexford (during normal working hours).

### NOTE

**THE GRANTING OF THIS WASTE FACILITY PERMIT, AND ANY CONDITION IMPOSED BY IT, DOES NOT EXEMPT THE HOLDER OF THE PERMIT FROM COMPLYING WITH THE STATUTORY OBLIGATIONS OF ANY RELEVANT LEGISLATION, INCLUDING WATER POLLUTION, AIR POLLUTION, WASTE, LITTER AND PLANNING LEGISLATION.**

## SCHEDULE OF ACTIVITIES PERMITTED

For the purposes of the Waste Management (Facility Permit and Registration) Regulations 2007 and the Waste Management (Facility Permit and Registration) (Amendment) Regulations 2008 the facility is issued this permit for the following classes of activity under Part I of the Third Schedule of the above regulations:

Class No.	Description
10	<p>The recovery of waste (not mentioned elsewhere in this part of the third schedule), other than hazardous waste or an activity where there is a scheduled requirement to hold an IPPC licence or a waste licence, where –</p> <p>(a) the annual intake does not exceed 50,000 tonnes, and</p> <p>(b) the maximum quantity of residual waste consigned from the facility for onward transport and submission to disposal at an authorised facility shall not exceed 15% of the annual intake.</p>

For the purposes of the Waste Management Acts, 1996 to 2010 the facility is issued this Facility Permit for the following classes of waste recovery activity under the Third Schedule of the Waste Management Acts, 1996 to 2010:

- |     |   |
|-----|---|
| 13. | Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced. |
|-----|---|

For the purposes of the Waste Management Acts, 1996 to 2010 the facility is issued this Facility Permit for the following classes of waste recovery activity under the Fourth Schedule of the Waste Management Acts, 1996 to 2010:

- |     |   |
|-----|---|
| 3.  | Recycling or reclamation of metals and metal compounds.   |
| 4.  | Recycling or reclamation of other inorganic materials.  |
| 13: | Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced. |

## Condition 1: SCOPE

- 1.1 This Facility Permit is issued under the Waste Management (Facility Permit and Registration) Regulations 2007 and the Waste Management (Facility Permit and Registration) (Amendment) Regulations 2008 to Glassco Recycling Limited, Unit 4 Osberstown Business Park, Carragh Road, Naas, Co. Kildare for a recovery facility at Unit 4 Osberstown Business Park, Carragh Road, Naas, Co. Kildare
- 1.2 This permit is granted for a period not exceeding 60 months from the date of issue.
- 1.3 Should environmental pollution occur at the site, this permit may be reviewed by Kildare County Council.
- 1.4 For the purposes of this waste facility permit, the facility is the area outlined in red on the Site Location Plan titled "Extension to Glassco Recycling Premises, Osberstown Business Park, Naas", scale 1:2500, received on the 3/12/2009, except where altered or amended by conditions of this waste permit.
- 1.5 For the purposes of this waste permit, the waste activities shall be carried out as shown on the Proposed Site Plan, Drawing Number 09-01-50, scale 1:500, received on the 3/12/2009, except where altered or amended by conditions of this waste permit.
- 1.6 The waste permit is for the purposes of waste permitting under the Waste Management Act 1996 to 2010 and nothing in this waste permit shall be construed as negating the permit holders statutory obligations or requirements under any other enactments or regulations.
- 1.7 Only those Waste Types specified in Schedule A of this waste permit, shall be accepted and processed at the facility.
- 1.8 The permit holder shall give notice in writing to Kildare County Council of any significant changes in the information furnished in the application for the permit. Such notice shall be given within three weeks of any such change arising. On receipt of this information Kildare County Council may require a new/review waste permit application to be submitted.
- 1.9 The permit holder shall be responsible for ensuring that the waste activities are controlled, operated and maintained in strict accordance with the terms of the application as modified and/or controlled by the conditions attached to the Waste Permit and conditions attached to Planning Permission 09/48 and 06/1710. The permit holder shall establish procedures to ensure that corrective action is taken should any condition of this permit not be complied with. Kildare County Council shall be notified of any such breach by telephone/fax and full details shall be forwarded in writing on the next working day.

- 1.10 Where Kildare County Council considers that a non-compliance with the conditions of this permit has occurred, it may serve a notice on the permit holder specifying;
- (a) that only those wastes as specified, if any, in the notice are to be accepted at the facility after the date specified in the notice; and
  - (b) that the permit holder shall undertake the works stipulated in the notice, and/or otherwise comply with the requirements of the notice as set down therein, within any time-scale contained in the notice.

When the notice has been complied with, the permit holder shall provide written confirmation to the local authority that the requirements of the notice have been carried out. No waste, other than that which is stipulated in the notice, shall be accepted at the facility until written confirmation is received from the Council that the notice is withdrawn.

REASON: To clarify the scope of this permit.

## Condition 2: MANAGEMENT OF THE ACTIVITY

- 2.1 The permit holder shall acquaint all staff, employees, lessees and agents, including replacement personnel, of the provisions and conditions of this permit.
- 2.2 A copy of the permit must be kept at the facility at all times.
- 2.3 Kildare County Council shall have unrestricted access to the premises at all reasonable times on production of identification, if required, for the purpose of their functions under the Waste Managements Act 1996 to 2010. The site shall be adequately manned and supervised at all times.
- 2.4 A suitably qualified and experienced Facility Manager shall be designated as the person in charge. The Facility Manager or a suitably qualified and experienced Deputy shall be present during the operation of the facility. The Permit Holder shall ensure that the Facility Manager or the Deputy shall be available on site to meet with authorised persons of Kildare County Council at all reasonable times.
- 2.5 The permit holder shall establish and maintain Awareness and Training Procedures for identifying training needs and for providing appropriate training, for personnel whose work is related to the permitted facility. Written records of training shall be maintained.
- 2.6 The site shall only operate between the hours of 06.00 to 22.00 hrs, Monday to Saturday inclusive (excluding Bank and National Holidays) except where amended in writing by Kildare County Council.
- 2.7 Recovery activities shall only be undertaken by persons authorised to do so by the permit holder. Employees with responsibilities in the waste control area shall receive training adequate to enable them to execute their tasks in relation to pollution control.

- 2.8 The permit holder shall ensure that all waste activities at the facility are consistent with the objectives of the Waste Management Plan for the county of Kildare and the current National Hazardous Waste Management Plan.
- 2.9 The permit holder shall prepare a Waste Management Programme which shall assess all operations which produce waste on site. The programme shall study the use of cleaner technologies and production which could maximise waste recovery. The programme should also document any such measures which have already been assessed or implemented by the permit holder. A report shall be submitted to Kildare County Council detailing the results of this study within 12 months of the issue of this permit. The report shall address the following topics as a minimum,
- a) Process modifications and control;
  - b) Cleaning procedures and materials used;
  - c) Reuse, recovery and recycling of wastes.
- 2.10 Within two months from the date of grant of this waste permit, the permit holder shall submit written details of the management structure of the facility for the agreement of Kildare County Council.
- 2.10 The permit holder shall establish and maintain a programme for maintenance of all plant and equipment based on the instructions issued by the manufacturer/supplier or installer of the equipment.
- 2.11 The permit holder shall establish and maintain a Communications Programme to ensure that members of the public can obtain information at the facility, at all reasonable times, concerning the environmental performance of the facility.

REASON: To make provision for the proper management of the facility on a planned basis having regard to the desirability of ongoing assessment, recording and reporting of matters affecting the environment.

### Condition 3: NOTIFICATION AND RECORD KEEPING

- 3.1 All communication with Kildare County Council shall be addressed to Senior Executive Officer, Environment Section, Kildare County Council, Áras Chill Dara, Devoy Park, Naas, Co Kildare.

Telephone (045) 980588, Fax: (045) 980587

- 3.2 The permit holder shall immediately notify Kildare County Council of any incident which occurs as a result of the activity on the site and which:-

- (i) Has the potential for environmental contamination of surface water or ground water, or
- (ii) Poses an environmental threat to air or land, or
- (iii) Requires an emergency response by Kildare County Council.

This notification shall be by both telephone and facsimile, if available, as soon as is practicable after the occurrence of the incident. The permit holder shall include as part of the notification, date and time of the incident, details of the occurrence, and steps taken to avoid reoccurrence. The notification given to the Council shall include details of the circumstances giving rise to the incident and all actions taken to minimise the effect on the environment and minimise wastes generated. The permit holder shall make a record of any incident as set out above.

- 3.3 The permit holder shall compile and maintain specified records for each load of waste arriving at and leaving the facility for a period not less than 7 years. The permit holder shall include as a minimum the following.

- a) Origin of the load;
- b) Description of the material in each load (including the European Waste Catalogue Code(s) and description(s) pursuant to Commission Decision 2001/118/EC of 16 January 2001 or subsequent amendments);
- c) The quantity of the materials, estimated in tonnes and recorded in loads;
- d) The treatment, recovery, or disposal activity to which the waste is subject, including the compilation of commercial documentation for all collected waste deposited at the facility;
- e) Where loads are removed or rejected, details of the date and time of occurrence, the type of material, and the place to which they were removed;
- f) The date and time of all waste deliveries to the site;
- g) The names of the carriers and the vehicle registration numbers;
- h) a consignment note number (including TFS notification and movement / tracking form numbers as appropriate);
- i) the destination of outgoing waste (including a facility name and waste licence or permit number as appropriate) and
- i) any other information which might be required from time to time by Kildare County Council.

The docket/records must be maintained at the principal place of business for a period not less than 7 years. These records shall be available for inspection at the principal place of business during normal working hours by authorised officers of Kildare County Council and any other person authorised under Section 14 of the Waste Management Acts 1996 to 2010. The permit holder shall comply with the provisions of this condition unless otherwise agreed in writing by Kildare County Council.

- 3.4 The permit holder shall maintain a written record of all complaints of an environmental nature related to the site. Each such record shall give details of the following.
- a) Date and time of complaint;
  - b) Name of complainant;
  - c) Details of the nature of the complaint;
  - d) Action taken on foot of the complaint and the results of such actions;
  - e) Response to each complainant.
- 3.5 The permit holder shall submit a report to Kildare County Council, which shall include the information compiled in 3.2 and 3.3 above. In addition, the permit holder shall include in the report a written summary of compliance with all of the conditions attached to the permit. This report shall be submitted for the preceding calendar year by no later than 28 February of each year and within one month of waste activities ceasing on the site. **The report shall be called The Annual Report (AR).**
- 3.6 The permit holder shall make all records maintained on site available to Kildare County Council staff at all reasonable times, and shall provide any relevant information when so requested by an authorised person of Kildare County Council. The information compiled in 3.2 and 3.3 shall be maintained at the principal place of business for a period of not less than 7 years
- 3.7 The permit holder shall notify Kildare County Council within five working days of-
- (i) the imposition of any requirement on that person by order under the Waste Management Acts 1996-2010 or
  - (ii) any conviction of that person for an offence prescribed under the Waste Management Acts 1996-2010
- 3.8 Within one month of waste activities ceasing on the site, the permit holder shall submit a report to Kildare County Council which shall include the information contained in the written records described above, and details of any impositions or convictions imposed under the Waste Management Act, 1996 to 2010. In addition, the permit holder shall include in the report a written summary of compliance with all of the conditions attached to the Waste Permit

<b>REASON:</b> To provide for the notification of incidents, to update information on the activity and to provide for the keeping of proper records.
--

#### Condition 4: MATERIALS ACCEPTANCE AND HANDLING

- 4.1 Only waste types specified in Schedule A are permitted at the facility.
- 4.2 The permit holder shall remove immediately any waste placed on or in the vicinity of the site other than in accordance with the requirements of the permit. If such waste is discovered it shall be taken to an authorised facility.
- 4.3 All waste accepted at the site shall be inspected before it is loaded into the plant. Contaminated waste shall be removed and stored in the waste quarantine area as shown on the Proposed Site Plan, drawing number 09-01-50 received on 3/12/2009.
- 4.4 No waste shall be stored at the facility in other than designated storage areas as shown on the Proposed Site Plan, drawing number 09-01-50 received on 3/12/2009. The storage areas shall be marked on the floor or otherwise delineated within 3 months of receipt of this waste facility permit.
- 4.5 (a) All waste arriving at the facility shall be subject to a visual inspection by the permit holder, or his/her staff, employees, lessees or agents. The permit holder shall remove immediately any waste placed at the facility other than waste permitted in condition 4.1. Any waste deemed unsuitable for processing at the facility and/or in contravention of this waste permit shall be immediately separated and removed from the facility at the earliest possible time. Temporary storage of such waste shall be in a designated Waste Quarantine Area. Waste shall be stored under appropriate conditions in the quarantine area to avoid putrefaction, odour generation, the attraction of vermin and any other nuisance or objectionable condition.
- (b) This waste shall be transferred to an authorised facility for the purpose of recovery or disposal activity in respect of which Section 39 (1) of the Waste Management Acts 1996 to 2010. Following delivery of such unauthorised waste to the site, Kildare County Council shall be immediately notified by telephone, fax or e-mail and full details shall be forwarded in writing on the next working day.
- 4.6 The permit holder shall ensure that a record of all inspections of incoming waste loads shall be maintained.
- 4.7 The permit holder shall ensure that all wastes, shall only be accepted at the facility from known customers or new customers subject to initial waste profiling and waste characterisation off-site. The written records of this off-site waste profiling and characterisation shall be retained by the permit holder for all active customers and for a two-year period following termination of permit holder/customer agreements.
- 4.8 The permit holder shall ensure that all containers accepted or being used at the facility shall be whole and sound. The contents of any leaking or otherwise ruptured containers shall immediately be transferred to a sound container in a manner which

will not adversely affect the environment. Any spillages should be cleaned up so as not to adversely affect the environment or the performance of the oil interceptor.

- 4.9 Waste storage and processing shall be as shown on the Proposed Site Plan, drawing number 09-01-50 received on 3/12/2009. It is necessary that the storage and processing of specified wastes shall be carried out in the designated areas. Each designated waste area shall be clearly marked/labelled.
- 4.10 The permit holder shall ensure that scavenging is not be permitted at the facility.
- 4.11 The permit holder shall provide and use adequate lighting during the operation of the facility in hours of darkness.
- 4.12 The permit holder shall ensure that fuels are only stored at appropriately banded locations on the facility.
- 4.13 The permit holder shall ensure that no smoking is allowed in waste handling areas.
- 4.14 The permit holder shall submit a written proposal to Kildare County Council, for agreement, on any proposed new waste processing procedure, along with relevant details, prior to any such processes or associated works being carried out.
- 4.15 The permit holder shall ensure that all waste sent off-site for recovery or disposal shall only be conveyed by an authorised waste collector.
- 4.16 The permit holder shall ensure that all waste transferred from the facility shall only be transferred to an authorised facility.
- 4.17 All hauliers importing waste to or removing waste from the facility shall hold a valid waste collection permit in accordance with the Waste Management (Collection Permit) Regulations 2007 and the Waste Management (Collection Permit) (Amendment) Regulations 2008.
- 4.18 The permit holder shall not export waste from the State unless such export is fully in compliance with the Waste Management (Transfrontier Shipment of Waste) Regulations, 2007 and the Waste Management (Movement of Hazardous Waste) Regulations, 1998.
- 4.19 The permit holder shall ensure that all waste handling/processing plant and treatment/abatement and emission control equipment shall be calibrated and maintained in accordance with the instructions issued by the manufacturer/supplier or installer. Written records of the calibrations and maintenance shall be made and kept by the permit holder.
- 4.20 The permit holder shall maintain and clearly label and name all sampling and monitoring locations.

<b>REASON:</b> To provide for the acceptance and management of wastes authorised under this waste permit
--

## Condition 5: SITE INFRASTRUCTURE

- 5.1 The permit holder shall establish all infrastructure referred to in the waste permit and waste permit application **within 1 month** of the commencement of the permitted activities or as required by the conditions of this waste permit.
- 5.2 A site notice board shall be provided and maintained by the permit holder, so that it is legible to persons outside the main entrance to the facility. The board shall clearly show:
- the name and telephone number of the facility;
  - the normal hours of operation;
  - the name, address and telephone number of the waste permit holder;
  - an emergency out of hours contact telephone number;
  - the name address and telephone number of the operator of the facility;
  - the waste permit reference number;
  - where and when environmental monitoring information relating to the facility can be obtained.
- 5.3 The facility shall be secured at all times and shall be kept locked shut when unsupervised.
- 5.4 The permit holder shall provide and maintain an office on the facility including a working telephone and facsimile machine, and the office shall be suitable for processing and storing of documentation.
- 5.5 A Waste Inspection Area and a Waste Quarantine Area shall be provided and maintained at the facility.
- 5.6 The waste inspection area and the waste quarantine area shall be constructed and maintained in a manner suitable, and be of a size appropriate, for the inspection of waste and subsequent quarantine if required. The waste inspection area and the waste quarantine area shall be clearly identified and segregated from each
- 5.7 All waste storage areas and processing areas shall be rendered impervious to the material stored in them.
- 5.8 The waste permit holder shall provide a weighbridge and wheel cleaning capability at the facility
- 5.9 Waste Handling, Ventilation and Processing Plant  
Items of plant deemed critical to the efficient and adequate processing of waste at the facility (including *inter alia* waste loading vehicles and ejector trailers) shall be provided on the following basis:
- 100% duty capacity;
  - 20% standby capacity available on a routine basis;
- Provision of contingency arrangements and/or back up and spares in the case of breakdown of critical equipment.

- 5.10 All tank, container and drum storage areas shall be rendered impervious to the materials stored therein.
- 5.11 All tank and drum storage areas shall, as a minimum, be bunded, either locally or remotely, to a volume not less than the greater of the following:-  
(a) 110% of the capacity of the largest tank or drum within the bunded area; or  
(b) 25% of the total volume of substance which could be stored within the bunded area.
- 5.12 All drainage from bunded areas shall be treated as hazardous waste unless it can be demonstrated to be otherwise. All drainage from bunded areas shall be diverted for collection and safe disposal.
- 5.13 Trade effluent generated from the wash bay shall pass through a grit trap/silt trap and petrol oil interceptor, prior to discharging to the foul sewer.
- 5.14 All surface water, which is contaminated or likely to be contaminated from the facility shall pass through the two adequately sized and sited petrol/oil interceptors before being discharged to the attenuation tank as shown on the Proposed Site Plan, drawing number 09-01-50 received on 3/12/2009.
- 5.15 All surface water, which is contaminated or likely to be contaminated from the facility shall pass through the two adequately sized and sited petrol/oil interceptors and attenuation tank before being discharged to the surface water system.
- 5.16 All inlets, outlets, vent pipes, valves and gauges must be within the bunded area.
- 5.17 All tanks, containers and drums shall be labelled to clearly indicate their contents.
- 5.18 The permit holder shall ensure that surface water run off from the public road is suitable drained onto the site/property where necessary..
- 5.19 The permit holder shall ensure that no surface water runoff from the site is discharged onto the public road.
- 5.20 The permit holder shall not allow any over spill of waste outside the perimeter of the site or into surface water drains or streams or any water courses.
- 5.21 The permit holder shall ensure that all surface water from the carpark areas and service vehicle areas shall pass through adequately sized and sited petrol oil interceptors and attenuation tank before being discharged to the surface water system.
- 5.22 The permit holder shall ensure that the surface water systems, bunds, silt traps and oil separators shall be inspected weekly, desludged as necessary and properly maintained at all times.
- 5.23 The integrity and water tightness of all underground pipes and tanks and their resistance to penetration by water or other materials carried or stored therein shall be tested and demonstrated by the permit holder and shall be reported to Kildare County Council following their installation and prior to their use. A written record of all integrity tests and any maintenance or remedial work arising from them shall be maintained by the permit holder.

- 5.24 Within six months of the date of grant of this waste permit, the permit holder shall provide and maintain fire control systems at the facility.
- 5.25 The waste permit holder shall install and provide adequate measures for the control of odours and dust emissions, including fugitive dust emissions, from the facility.
- 5.26 The permit holder shall ensure that no skips or vehicles shall be parked on the estate road.

**REASON:** To provide appropriate infrastructure for the protection of the environment

### **Condition 6: EMISSIONS**

- 6.1 No specified emission from the facility shall exceed the emission limit values set out in *Schedule B: Emission Limits* of this waste permit. There shall be no other emissions of environmental significance.
- 6.2 The permit holder shall ensure that the activities shall be carried out in a manner such that emissions do not result in significant impairment of, or significant interference with the environment beyond the facility boundary.
- 6.3. Emissions to Surface Water
- 6.3.1. The trigger levels for discharge from the petrol oil interceptors are:
- (a) BOD 25mg/l
  - (b) Suspended Solids 35mg/l
  - (c) Mineral Oils 10mg/l
- 6.3.2 Roof-water from the on-site buildings shall be discharged to surface water or be used on-site in a manner to be agreed with Kildare County Council.
- 6.4. The permit holder shall ensure that there is no direct emissions to groundwater.
- 6.5. The permit holder shall ensure that there is no clearly audible tonal component or impulsive component in the noise emissions from the activity at noise sensitive locations.
- 6.6 The permit holder shall at no time discharge or permit to be discharged into the sewer any liquid matter or thing that is or may be liable to set or congeal at average sewer temperature or is capable of giving off any inflammable or explosive gas or any acid, alkali or other substance in sufficient concentration to cause corrosion to sewer pipes, penstock and sewer fittings or the general integrity of the sewer.

**REASON:** *To control emissions from the facility and provide for the protection of the environment.*

## CONDITION 7: NUISANCE CONTROL

- 7.1 The permit holder shall ensure that vermin, birds, flies, mud, dust, litter and odours do not give rise to nuisance at the facility or in the immediate area of the facility. Any method used by the permit holder to control any such nuisance shall not cause environmental pollution.
- 7.2 The permit holder shall ensure that the road network in the vicinity of the facility is kept free from any debris caused by vehicles entering or leaving the facility. Any such debris or deposited materials shall be removed without delay.
- 7.3 Vehicles shall not be allowed to queue or park on the public road. Provision shall be made within the confines of the site for turning of vehicles. Car parking space shall be provided for all staff and visitors to the site, on a durable surface within the curtilage of the site. Adequate turning area is to be provided within the site, which is capable of accommodating the tipper trucks using the site.
- 7.4 The permit holder shall ensure that waste activities on the site shall be carried out in such a manner so as not to have an adverse effect on the drainage of adjacent lands, on watercourses, on field drains or any other drainage system including the public roadway.
- 7.5 All loose litter accumulated within the site and its environs shall be removed and appropriately disposed of at an appropriate facility on a daily basis.
- 7.6 The permit holder shall ensure that all vehicles delivering waste to and removing waste and materials from the facility are appropriately covered.
- 7.7 Dust/Odour Control
- 7.7.1 The permit holder shall ensure that in dry weather, site roads and any other areas used by vehicles shall be sprayed with water as and when required to minimise airborne dust nuisance.
- 7.7.2 The permit holder shall install and provide adequate measures for the control of odours and dust emissions, including fugitive dust emissions, from the facility.
- 7.8 The permit holder shall maintain a programme for the control and eradication of vermin at the facility.
- 7.9 The permit holder shall ensure that prior to exiting the facility, all required waste vehicles shall use the wheelwash.
- 7.10 The permit holder shall ensure that the waste activities at the site shall be carried out in a manner such that emissions do not result in significant impairment of, or significant interference with the environment beyond the site boundary.

**REASON:** *To provide for the control of nuisances.*

## Condition 8. Accident Prevention and Emergency Response

- 8.1 The permit holder shall ensure that a documented Accident Prevention Procedure is in place, which will address the hazards on-site, particularly in relation to the prevention of accidents with a possible impact on the environment. This procedure shall be reviewed annually and updated as necessary.
- 8.2 The permit holder shall, ensure that a documented Emergency Response Procedure is in place, which shall address any emergency situation, which may originate on-site. This procedure shall include provision for minimising the effects of any emergency on the environment. This procedure shall be reviewed annually and updated as necessary.
- 8.3 All significant spillages occurring at the facility shall be treated as an emergency and immediately cleaned up and dealt with so as to alleviate their effects.
- 8.5 The permit holder shall ensure that no waste shall be burnt within the boundaries of the facility. A fire at the facility shall be treated as an emergency and immediate action shall be taken to extinguish it and notify the appropriate authorities.
- 8.6 The permit holder shall have in storage an adequate supply of containment booms and/or suitable absorbent material to contain and absorb any spillage at the facility. Once used the absorbent material shall be disposed of at an authorised facility.

*Reason: To provide for the protection of the environment.*

## CONDITION 9 : MONITORING

- 9.1 Authorised staff of Kildare County Council shall have access to the site at all reasonable times, for the purpose of their functions under the Waste Management Acts 1996 to 2010, including such inspections, monitoring and investigations as are deemed necessary by the Council.
- 9.2. The permit holder shall carry out such monitoring and at such locations and frequencies as set out in *Schedule C: Monitoring*, of this waste permit and as specified in this waste permit. Unless otherwise specified by this waste permit, all environmental monitoring shall commence no later than two months after the date of grant of this waste permit.
- 9.3. The permit holder shall amend the frequency, locations, methods and scope of monitoring as required by this waste permit only upon the written instruction of Kildare County Council and shall provide such information concerning such amendments as may be requested in writing by Kildare County Council. Such alterations shall be carried out within any timescale nominated by the Kildare County Council.

- 9.4. Monitoring and analysis equipment shall be operated and maintained in accordance with the manufacturer's instructions (if any) so that all monitoring results accurately reflect any emission, discharge or environmental parameter.
- 9.5 The permit holder shall provide safe and permanent access to all on-site sampling and monitoring points and to off-site points as required by the Kildare County Council.
- 9.6 The permit holder shall maintain all sampling and monitoring points, and clearly label and name all sampling and monitoring locations, so that they may be used for representative sampling and monitoring.
- 9.7 Within one month of the date of grant of this waste permit, the following information shall be submitted to Kildare County Council for its agreement: the names, qualifications and a summary of relevant experience of all persons that will carry out all sampling and monitoring as required by this waste permit and who carry out the interpretation of the results of such sampling and monitoring.  
Any proposed changes to the above shall be submitted in writing to Kildare County Council for its agreement.
- 9.8 Noise monitoring shall be carried out during operational hours. The first such monitoring event shall be undertaken within three months of the date of grant of this waste permit. Noise monitoring results shall be submitted to the Environment Section of Kildare County Council.
- 9.9 Dust monitoring shall be undertaken within six months of the date of grant of this waste permit. Dust monitoring results shall be submitted to the Environment Section of Kildare County Council.
- 9.10 The permit holder shall, at a minimum of one week intervals, inspect the facility and its immediate surrounds for nuisances caused by litter, vermin, birds, flies, mud, dust and odours.

***REASON:*** *To ensure compliance with the conditions of this waste permit by provision of a satisfactory system of monitoring of emissions.*

## CONDITION 10: EXPIRE OF PERMIT AND AFTERCARE

- 10.1 In the event of this Permit being revoked or a new Permit not being issued on the expiration of this Permit, whether by way of the Permit Holder not applying for a new Permit or the Council not granting a new Permit, the Permit holder shall immediately cease the recovery of material at the facility.
- 10.2 Following the termination, or planned cessation of use or involvement of all or part of the site in the permitted facility, the permit holder, in a manner to be approved by the Council, shall decommission, render safe or remove for disposal/recovery, any plant or equipment, or any waste, materials or substances or other matter contained therein or thereon, that may result in environmental pollution.

REASON: To provide for the decommissioning of the facility and aftercare of the facility on which the facility is located.

## Condition 11: CHARGES AND FINANCIAL PROVISIONS

- 11.1 The permit holder shall pay an annual contribution of €1000 to Kildare County Council towards the cost of inspecting, monitoring, auditing, enforcing or otherwise performing any functions in relation to the permitted activity concerned. The Permit Holder shall pay to Kildare County Council this amount within 10 days of receipt of this permit and thereafter on an annual basis. In the event that the frequency or extent of monitoring or other functions carried out by Kildare County Council needs to be increased for whatever reason the permit holder shall contribute such sums as are determined by the LA to defray costs.

REASON: To provide for adequate financing for monitoring and financial provisions for measures to protect the environment.

## SCHEDULE A : Waste Acceptance

### **15 WASTE PACKAGING; ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED**

**15 01 packaging (including separately collected municipal packaging waste)**

15 01 04 metallic packaging

15 01 07 glass packaging

### **16 WASTES NOT OTHERWISE SPECIFIED IN THE LIST**

**16 01 end-of-life vehicles from different means of transport (including off-road machinery) and wastes from dismantling of end-of-life vehicles and vehicle maintenance (except 13, 14, 16 06 and 16 08)**

16 01 20 glass

### **17 CONSTRUCTION AND DEMOLITION WASTES (INCLUDING EXCAVATED SOIL FROM CONTAMINATED SITES)**

**17 02 wood, glass and plastic**

17 02 02 glass

### **20 MUNICIPAL WASTES (HOUSEHOLD WASTE AND SIMILAR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL WASTES) INCLUDING SEPARATELY COLLECTED FRACTIONS**

**20 01 separately collected fractions (except 15 01)**

20 01 02 glass

*For inspection purposes only.  
Consent of Copyright owner required for any other use.*

## SCHEDULE B: Emission Limits

**B.1 Noise Emissions:** (Measured at the noise sensitive locations to be agreed by Kildare County Council).

Day dB(A) LAeq(30 minutes)	Night dB(A) LAeq(30 minutes)
55* *08.00hrs to 1800hrs Monday to Friday inclusive, (excluding bank holidays)	45* *at all other times including Saturday, Sunday and Bank Holidays

**B.2 Dust Deposition Limits:** (Measured at the monitoring points to be agreed by Kildare County Council).

Level (mg/m <sup>2</sup> /day) <sup>Note 1</sup>
350

**Note 1:** 30 day composite sample with the results expressed as mg/m<sup>2</sup>/day.

**B.3 Discharge from the petrol oil interceptor** (Sample to be taken at the outlet of the petrol/oil interceptor)

Parameter	Emission Limit Value mg/l
BOD	25
Suspended Solids	35
Mineral Oils	10

## SCHEDULE C : Monitoring

Monitoring to be carried out as specified below.

### **C.1 Dust**

**Table C.1.1 Dust Monitoring Frequency and Technique**

Parameter (mg/m <sup>2</sup> /day)	Monitoring Frequency	Analysis Method/Technique
Dust	Annually	Standard Method <sup>Note 1</sup>

**Note 1:** Standard method VDI2119 (Measurement of Dustfall, Determination of Dustfall using Bergerhoff Instrument (Standard Method) German Engineering Institute). A modification (not included in the standard) which 2 methoxy ethanol may be employed to eliminate interference due to algae growth in the gauge.

### **C.2 Noise**

**Table C.2.1 Noise Monitoring Frequency and Technique**

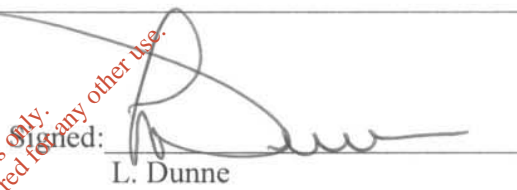

Parameter	Monitoring Frequency	Analysis Method/Technique
L(A)EQ [30 minutes]	Annually	Standard <sup>Note1</sup>
L(A)10 [30 minutes]	Annually	Standard <sup>Note1</sup>
L(A)90 [30 minutes]	Annually	Standard <sup>Note1</sup>
Frequency Analysis 1/3 Octave band analysis)	Annually	Standard <sup>Note1</sup>

**Note 1:** "International Standards Organisation. ISO 1996. Acoustics - description and Measurement of Environmental noise. Parts 1, 2 and 3."

*C.3 Discharge from Petrol Oil Interceptor*

**Table C.3.1 Outlet of the Petrol/Oil Interceptor**

Parameter	Monitoring Frequency	Analysis Method/Technique
<b>Visual Inspection</b>	Weekly	Not applicable
<b>BOD</b>	Bi-annually	Standard Methods
<b>Total Suspended Solids</b>	Bi-annually	Standard Methods
<b>Mineral Oils</b>	Bi-annually	<b>GC-FID</b>

EPA Waste Licence Application, July 2011

# SITE NOTICE

## APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE

Rehab Glassco Ltd., Unit 4, Osberstown Industrial Park, Caragh Road, Naas, Co. Kildare, is applying to the Environmental Protection Agency (EPA) for a Waste Licence for a glass and can recycling facility at Unit 4, Osberstown Industrial Park, Caragh Road, Naas, Co. Kildare (National Grid Reference E 296767 N 220379). The site is currently operating as a recycling facility under permit from Kildare County Council (WFP-KE-08-0357-01).

The area of the site and the proposed EPA licensed area is 21,300m<sup>2</sup>. The Main Process at the facility applies a range of state-of-the-art sorting and processing techniques to separate the input material into colour-segregated glass cullet product and cans/metals. The glass cullet is transported off-site for use as a raw material in the glass manufacturing industry. The facility also operates a Drying Plant, which processes the residual glass fraction. The total input to the facility will be up to 150,000 tonnes per annum.

The relevant waste disposal and waste recovery activities, as per the Third and Fourth Schedules of the Waste Management Acts 1996 to 2011 and the Waste Management Licensing Regulations, 2004 (SI 395 of 2004), to which this application relate are:

### **Licensed Waste Disposal Activities, in accordance with the Third Schedule of the Waste Management Acts 1996 to 2011**

D 15: Storage pending any of the operations numbered D 1 to D 14 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

### **Licensed Waste Recovery Activities, in accordance with the Fourth Schedule of the Waste Management Acts 1996 to 2011**

R 4: Recycling/reclamation of metals and metal compounds.

R 5: Recycling/reclamation of other inorganic materials, which includes soil cleaning resulting in recovery of the soil and recycling of inorganic construction materials.

R 12: Exchange of waste for submission to any of the operations numbered R 1 to R 11 (if there is no other R code appropriate, this can include preliminary operations prior to recovery including pre-processing such as, amongst others, dismantling, sorting, crushing, compacting, pelletising, drying, shredding, conditioning, repackaging, separating, blending or mixing prior to submission to any of the operations numbered R1 to R11).

R 13: Storage of waste pending any of the operations numbered R 1 to R 12 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

R 5 is the principal activity (relating to glass recycling).

A copy of the Waste Licence Application and any further information relating to the application as may be furnished to the EPA in the course of the EPA's consideration of the application, will, as soon as practicable after receipt by the EPA, be available for inspection or purchase at EPA Headquarters, PO Box 3000, Johnstown Castle Estate, Co. Wexford (during normal working hours).

EPA Waste Licence Application, July 2011

# RUGBY THUG PAYS ATTACK COMP

**A YOUNG** rugby player has been ordered to pay €3,500 compensation to a young man he punched in the mouth on the street. Donegal District Court heard that Darragh Farragher (19) broke two of Darragh Sweeney's front teeth and caused him to have 13 internal stitches in his mouth.

Farragher was deeply involved in sport, being a member of a rugby club and a hurling team in Donegal town. He lived a "monastic lifestyle" in training for sport and that would have affected his intake of alcohol, Mr Hartnett said. Judge Kevin Kilrane ordered Farragher to pay €3,500

# 'I took no advantage'

**A MAN** accused of raping his 65-year-old mother has said he had consensual sex with her and denied taking advantage of her. The 44-year-old Dublin man has pleaded not guilty at the Central Criminal Court to raping the woman at her home between March 2 and 3, 2008.

**By NIAH O'DONOGHUE**  
advantage of her and raped her", to which he replied: "No, I didn't." "You went ahead and had sex with this woman," said Mr Clarke. **Defence**  
"This woman also had

**News in brief**  
**Man attacked for litter photo**  
A MOTORIST was attacked when he took photographs of a teenage litterbug; a court has heard. A 17-year-old boy, who cannot be named because he is a minor, pleaded guilty yesterday to assaulting the man and a breach of the peace at Tyrconnell

**Huge**  
"This is a huge series for both teams and for the public," said Pieteresen after James Anderson's five-wicket haul saw the tourists dismissed for 261. "Potentially, this is as big (as 2005). You can see that from the number of people who turned up this morning. "For us as players it's magnificent that the public thinks it's such a big series and hopefully we can get another full house at Trent Bridge now."

**Bed**  
Not that Hamilton had any sympathy saying: "You can't win them all - you can't get out of the right side of the bed every day. "Sebastian has been massively consistent since last year and this was a small glitch over a long period. He will have some interesting comments made about him, but he still finished fourth and the rest just had a slightly better weekend."

Nurburgring on Sunday, taking the lead on four separate occasions, after Friday practice wasn't even good enough to challenge

**■ PETER SAMSON**  
KEVIN Pieteresen likened the arrival of India in England this summer to the 2005 Ashes after a sold-out Lord's watched England complete a 196-run victory. With England needing nine wickets to topple the world's No.1 side, thousands of fans lined the streets of St John's Wood from the early hours of the morning. The public clamour for a piece of the action, as well as the calibre of the opposition, has not been seen in England since that famous series six years ago.

**■ JAMES MURRAY reports**  
for pole. Vettel looked untouchable as he won six of the first eight races this season but suddenly the doubts and mistakes have started to creep in. He was lucky to finish fourth on Sunday following another error-strewn race to be kicked off the podium for the first time this season.

**Lewis Hamilton** left world champion Sebastian Vettel choking on his dust as he scorched to victory in Sunday's German Grand Prix. And yesterday he promised his Red Bull rival that he would repeat the dose in Hungary on Sunday. McLaren ace Hamilton (below), the 2008 champion, still trails Vettel by 82 points in the championship race at the midway point of the season. But he is aiming to make further inroads in Budapest saying: "I've won there before (2007) and I can do it again."

**■ By PADDY CLANCY**  
Farragher was deeply involved in sport, being a member of a rugby club and a hurling team in Donegal town. He lived a "monastic lifestyle" in training for sport and that would have affected his intake of alcohol, Mr Hartnett said. Judge Kevin Kilrane ordered Farragher to pay €3,500

# Connacht's season ticket sales treble

# TO MISS TO MISS!

## CONNACHT season ticket count has sensationally trebled - soaring to 2,200 over the weekend - and it is still July!

■ DEREK FOLEY reports

"Once season ticket holders, sponsors, ERC, media and Toulouse fans' demands are met, there will be minimal space left."

Meanwhile, Connacht are making plans to take inspiration from a visit to the greatest Irish chieftain of all - their very own Queen Meabh.

### Proud

Eric Elwood's players are scheduled to train on August 7/8 in the shadow of Pirate Queen's burial place of Ben Bulbin, at Sligo RFC who this season will be Connacht's newest AIL Club.

"This is part of a number of initiatives designed to reinforce our provincial brand," continues Murphy.

"We are proud of our newest senior club Sligo while we are aware of the number of season tickets that have been going out to Sligo, Carrick-on-Shannon, Castlebar and Roscommon.

"We will also be playing our opening game of the season at Dubarry Park, Athlone, on August 13 against Exeter Chiefs."

**BIG SEASON:** Eric Elwood

Officials are already warning supporters the only way to guarantee a ticket for Toulouse at the Sportsground in October is to be a season ticket holder.

**Connacht-Toulouse on week two of the 2011/12 Heineken Cup will be Ireland's hottest rugby ticket in a long, long time.**

"There is a fantastic buzz about the place since we knew we had finally qualified for the Heineken Cup," says Connacht's Luke Murphy.

### Ticket

"We had 800 season ticket holders last season and if this pushes any higher it is going to be very hard to pick up a ticket."

**The Sportsground capacity is expected to be 7,500 this season.**

"The Toulon game last season showed us what we could strive for and we will be covering the terrace area on the far side and adding extra capacity at each end."

### PLANNING

during its public opening hours and a submission or observation in relation to the application may be made to the authority in writing on payment of the prescribed fee within the period of 5 weeks beginning on the date of receipt by the authority of the application.

**WICKLOW COUNTY COUNCIL** We Noel and June Manning seeks Outline Planning Permission for 3 no detached, 4 bed, former type dwelling houses, with new entrance gateway and driveway including all associated development site works at Maple Lodge Kilmolin Road Enniskerry Co Wicklow. The Planning application may be inspected or purchased at a fee not exceeding the reasonable cost of making a copy at the offices of Wicklow County Council, County Buildings, Wick, during its public opening hours. A submission or observation in relation to the application may be made to the authority in writing on payment of the prescribed fee of 20 euro within the period of 5 weeks beginning on the date of receipt by the authority of the application.

**DUN LAOGHAIRE RATHDOWN COUNTY COUNCIL** I. E. Duignan, intend to apply for Planning Permission for development at this site Victoria Lodge, Victoria Road, Killiney, Co Dublin. The works will consist of the construction of a two storey extension (40sqm approx on two levels) with an open porch loggia to the eastern side of the existing house (front), along with modifications to the local affected southern gable of the existing dining room including changes to the fenestrations / wall along with new balcony. The area of the "front" garden in which the extension is proposed is within the Architectural Conservation Area. The planning application may be inspected or purchased at the offices of the Planning Authority during its public opening hours - 10.00am to 4.00pm, Monday to Friday, excluding public holidays. The offices are at: Dun Laoghaire Rathdown County Council, County Hall, Marine Road, Dun Laoghaire. A submission or observation in relation to the application may be made in writing to the Planning Authority on payment of a fee of Eur20 within the period of five weeks beginning on the date of receipt by the Authority of the application.

### LEGAL

EPA licensed area is 21,300m<sup>2</sup>. The Main Process at the facility applies a range of state-of-the-art sorting and processing techniques to separate the input material into colour-segregated glass cullet product and cans/metals. The glass cullet is transported off-site for use as a raw material in the glass manufacturing industry. The facility also operates a Drying Plant, which processes the residual glass fraction. Wexford (during normal working hours).

**DUN LAOGHAIRE RATHDOWN COUNTY COUNCIL** I. E. Duignan, intend to apply for Planning Permission for development at this site Victoria Lodge, Victoria Road, Killiney, Co Dublin. The works will consist of the construction of a two storey extension (40sqm approx on two levels) with an open porch loggia to the eastern side of the existing house (front), along with modifications to the local affected southern gable of the existing dining room including changes to the fenestrations / wall along with new balcony. The area of the "front" garden in which the extension is proposed is within the Architectural Conservation Area. The planning application may be inspected or purchased at the offices of the Planning Authority during its public opening hours - 10.00am to 4.00pm, Monday to Friday, excluding public holidays. The offices are at: Dun Laoghaire Rathdown County Council, County Hall, Marine Road, Dun Laoghaire. A submission or observation in relation to the application may be made in writing to the Planning Authority on payment of a fee of Eur20 within the period of five weeks beginning on the date of receipt by the Authority of the application.

## ENVIRONMENTAL POLICY

Glassco Recycling regards environmental protection as an integral and essential part of good business practice. We are committed to achieving and maintaining a high standard of environmental quality in all of our operations.

To achieve our goals Glassco will:

- At a minimum, meet, and where appropriate, exceed the requirements of all relevant legislation
- Reduce waste in all operations and ensure use of the best environmental option for disposal of unrecoverable waste
- Promote the concepts of continuous improvement and pollution prevention by continually setting and reviewing environmental objectives and targets
- Provide the necessary training and support to staff so that they can carry out their environmental responsibilities effectively and professionally
- Promote the adoption of environmentally sound practices by contractors, suppliers and customers
- Foster openness and dialogue with our neighbours and the general public
- Make our environmental policy and records available to the public and interested parties

Whilst all employees have a duty to ensure that our operations do not cause environmental pollution, the overall responsibility for environmental protection lies with the Managing Director.

## SAFETY POLICY STATEMENT

The safety policy of Rehab Glassco Ltd is to ensure the health, safety and well being of every employee, contractor, trainee, visitor and member of the public at all times.

This will be accomplished by the provision of safe places of work, systems of work, control of hazards and appropriate training given to all personnel.

The company will provide the necessary resources to achieve and maintain high standards. Full co-operation of all employees is necessary if we are to achieve the best possible safety performance.

The arrangements for the management of health, safety and welfare are specified in the Company's safety manual. All employees must be made aware of its contents. The manual will be reviewed and updated as required by changes in the work activities of the company.

Management will endeavour to:

- comply with statutory legislation and codes of practice relating to health, safety and welfare at work;
- ensure that all management and employees are adequately informed, trained and equipped to carry out their work in a safe manner;
- ensure that all vehicles, machinery and equipment is regularly serviced and maintained in good working order;
- ensure that all employees are made aware of their duty to co-operate with this policy;
- ensure that this policy is reviewed on a regular basis and that relevant amendments are brought to the attention of all employees, contractors, visitors, trainees and employees

The designated safety officer is David Muldowney.
