

ATTACHMENT E2 – EMISSIONS TO SEWER

There will be no emissions to public (Local Authority) sewers associated with the operation of the proposed waste recovery facility.

Roadstone Wood Ltd. has two existing wastewater effluent (septic) tank on its property at Brownswood, both of which are located within the application site. One is located to the south of the existing canteen and services toilets, wash-hand basins and sink units. The other is located to the west of the existing site office and also services toilets, wash-hand basins and sink units. The locations of these septic tanks are shown in Figure E2.1.
