Dear Gillian,

I was passed on your request below and I was wondering please if I could just clarify something with you before I go changing database's here.

Is your change below in relation to the waste water applications that are currently in with ourselves ? If so, that means we will be changing ALL our applications contact details for each application that we have in. . Usually when there is a contact change the applicant whose name is currently on the application notifies us themselves of this change. We currently have 3 different contact names on these applications because Cork County Council is divided into 3 locations. i.e Cork County Council Northern Division, Cork County Council Southern Division and Cork County Council western Division. All in all it would mean I would be changing the contact details on 55 applications. Is that correct ?.

Or

Is the name change just for general waste water queries, i.e anything not related to these applications.

Hope this is clear for you but if not please do not hesitate to contact me.

Regards,

Grainne
