Dear Sir/Madam

I would like to make a submission re the waste licence application from AD Power Roscommon Ltd W0274-01.

My house is situated 500 yards from the proposed Bio Park at Ballinphuill.

I depend totally on a natural spring well for my water supply. I fear that my only supply of water could be affected not only by pollution but also by the proposed development diverting natural springs elsewhere.

I would like to draw your attention to the E.I.S submitted by AD Power Roscommon stating that they carried out a door to door survey and no wells were found in the area close to the proposed development.

In my view they did not look very far around the area, not only is my house close to the site but there is another house within 200 yards of the site also depending on a well for their supply of water. I hope you take my concerns into account when making a decision on this waste licence application.

Yours Sincerely

Teresa Jordan
