

O'REGANS C&D RECYCLING FACILITY TULLIGMORE, DRIPSEY COUNTY CORK Waste Licence Reg W0-255-01	Issued By:	
	Approved By:	
	Ref. No:	Programme 1
	Date:	8 th September 2010
	Rev No.	1

ENERGY & RESOURCE MANAGEMENT PROGRAMME

Scope

O'Regan's has prepared this Energy & Resource Management Programme (Programme) to ensure that the energy and resources used at the facility are measured, recorded and reviewed to ensure efficient use.

Objective

The Programme seeks to:

- Avoid unnecessary expenditure;
- Protect the environment by minimising carbon dioxide emissions; and
- Ensure efficient use of non-renewable resources.

Responsibilities

It shall be the responsibility of the O'Regan's to implement this programme. It is the responsibility of the Facility Manager to maintain written records of all energy and resources used on site and to ensure that all energy resource usage data, action plans and energy efficiency measures are included in the Annual Environmental Report.

ACTION PLAN

The following measures will be implemented: -

Management Actions

- O'Regan's will review the option of using bio-diesel in the facility's plant and transport vehicles.
- O'Regan's will review the option of switching to a renewable energy based electricity supplier.
- O'Regan's will establish a register of all significant energy using plant and equipment so that performance can be monitored.

- O'Regan's will ensure that all new plant and equipment have a high energy efficiency rating.
- O'Regan's will implement the recommendations of the energy audits carried out in accordance with the Waste Licence

Individual Actions

- All employees to turn off the lights when the site offices are not in use.
- All, vehicles plant and equipment operators to ensure that engines, machinery and pumps are switched off when not in use.
- All computer users to place their computer on 'energy saving mode' and to switch off computer monitors if they are leaving the office for more than an hour and especially when they are leaving at night..
