Re: Withdrawal of Waste License Review Application

Fingal Council wishes to withdraw its waste License Review application to the Agency, namely, Balleally Waste License Register No. W0009-04. This application sought a review of emission limit values contained in Waste License Register No. W0009-03 for treated leachate being discharged to the Rogerstown Estuary. The Council is also seeking a refund of the fee submitted to the Agency with this application in the sum of €25,000

The Council intends concentrating its resources on making a connection to the Portrane Donabate Rush & Lusk Wastewater Treatment Scheme for partially treated leachate from Balleally Landfill. Accordingly Fingal County Council seeks the agencies agreement to proceed with an application for a Technical Amendment of Balleally Waste License Register No. W0009-03 reflecting a change of discharge from Estuarine Waters to Sewer for partially treated leachate.

Kind regards,

PJ Howell
Director of Services
