Incorporating Big Ben Bins

Waste Collection Permit No. WCP/LK/09/595/C1 Yard Permit No. 002/07/WPT/CL

During 2010 there was approximately 30,000 tonnes accepted at the facility. During 2011 we predict that this could rise somewhere in the region of 45,000 tonne. This increase in tonnage would be due to the fact the nearly all mixed municipal waste collected is now being delivered to the facility. This material was delivered direct to landfill for the majority of last year.

Also end of life vehicles and scrap metal will be accepted for the first this year and this also will lead to increased tonnage.
