I refer to the memo from Noeleen Keavey dated 29/06/2011 concerning a request by Eco-Safe Ltd. for a technical amendment of their waste licence (register No. W0054-02).

1. RECOMMENDATION

It is recommended that the request from Eco-Safe Systems Limited should be processed by ELP as it cannot be accommodated by OEE.

2. COMPANY BACKGROUND

Waste Licence Reg No. W0054-02 was issued on 01/08/2003. The licence was issued for 3rd and 4th Schedule of the WMA 1996 waste activities:

Activity from 3rd Schedule: 7,12,13

Activity from 4th Schedule: 2,4,13

3. REASONS FOR RECOMMENDING A TECHNICAL AMENDMENT/REVIEW OF LICENCE

Having assessed the information submitted, I confirm that the change sought by the Licensee to Tables A.1 and A.2 of Schedule A cannot be accommodated through waste licence register No. W0054-02. I agree that a licence technical amendment or review is necessary.
