Brian Meaney EPA Inspector,
Environmental protection Agency Headquarters,
Po. Box 3000,
Johnstown castle Estate,
Co Wexford.

31st January 2012

Subject; Panda Waste Service Ltd Licence Application ref no. W0140-04 (Application Review)

Dear Mr Meaney.

I would like to place a complaint / Submission about smoke / fumes / constant background noises coming from Panda Waste plant Rathdrinagh, Beauparc,

Notice black smoke coming from up over front of shop Brink at 2.30pm, not sure how long plant was smoking before 2.30pm. Today Tuesday 31th January 2012. Smoke blowing in direction of my home. We Left the area at 6.30pm and returned at 9.15pm to deeper smoke fumes and very strong orders. Background noises more noticeable can be heard coming from plant up to 10.30pm this evening.

Panda Waste was notified through EPA Nile Horan and Complaint was submitted on behalf of residents in area including myself approx. 4.30pm. Information related back to us as concerned residents from EPA Nile Horan was servicing a boiler.

Is this a glimpse of the future, **DEEPLY CONCERNED FOR ME AND MY FAMILY HEALTH**, myself and sons asthmatic suffers? Repertory problems have improving since removal or Perfume Spray.

CONCERNED perfume replaced with SMOKE / TOXIC FUMES. Today 31st January 2012 has giving me good cause to be greatly concerned. Future looks bleak.

I am all for Enterprise and new Technology, Job Creation ----But at what price. With Panda Waste Plant history past and present only causes me greater concerns.

People before Profit – Environmental - Agriculture – Food - Heritage. All of which I have great respect and consideration.

Keen Gardner hobby grow own vegetables / fruit , all which will not be fit for human consumption, contamination, after what I have experience today all day closed windows early because of odours another issue. I don't see why I should have to check wind direction before opening windows on family home. While also enduring increased Lingering odours from increase traffic of passing waste trucks.

TODAY I HAD A GLIMPS OF MY FAMILY & HOME FUTURE CAUSING US DEEP CONCERNS. AIR POLLUTION – NOISE POLLUTION – it's disturbing to think that there is a possibility / risks that Panda Waste could blatantly abuse the conditions of Licence, Fears Bio-Mass Furnace will become an incinerator. Risk of fire and explosion associated with Bio Gas Power Plant.

Requesting increase unannounced plant inspections noise and air pollution monitoring.
Reassurance all environmental policies are implemented and policed regularly.

Requesting that Panda should not be granted permission to expand on its existing site or adjacent , Rathdrinagh Cross as Hazard's are to high, especially when Panda Waste boasts new plant procedures are first of its kind, (Pilot Scheme) all major causes for great concern to such a populated & Agricultural area.

I have no doubt if granted in this area will result in a devastating impact both on community & high possibility of a major Environmental Disaster, Concerns & publicity our country does not need at this current moment.

Application Licence Reference W0140-04Nurendale Limited.

Request; Mr John & Theresa Outram,
Greenfield ,Rathdrina, Beauparc, Navan,Co Meath.
