23 March 2012

Reg. No. P0915-01

Dear Mr Ryan

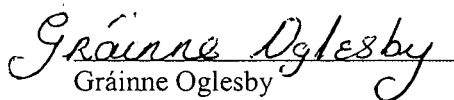

I refer to application documentation received by the Agency on 16 April 2012 which you requested to be held as confidential.

Having examined the information concerned, the Agency has decided that in the information as submitted only parts can be held as confidential and the remaining items cannot be held confidential.

The summary table of customer farmer lists (with farmers names) and the nutrient management plans for farms where slurry will be landspread are considered confidential, and will be held in our safe until such time as the final determination issues when they will be then returned to you to be updated as necessary and maintained on-site for inspection at all reasonable times.

The remaining information (the fertiliser plan for the activity, the coded summary table of customer farms, the 1:50,000 scale maps and the declaration by a suitable qualified person that the land are suitable for landspreading) is considered non-confidential, and the copy is returned herewith. The Agency notes that this information was submitted as part of the application which was received on 16 April 2012.

Yours sincerely,

Gráinne Oglesby
Office of Climate, Licensing & Resource Use
