APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR THE REVIEW OF A WASTE LICENCE

Notice is hereby given that Waste Recovery Services (Fermoy) Ltd., Cullinagh, Fermoy, Co. Cork, is applying to the Environmental Protection Agency for a review of a waste licence (Existing Waste Licence Ref: W0107-01) for its waste recovery facility at Cullinagh, Fermoy, Co. Cork (National Grid Reference: E1790 N9575). Waste Recovery Services intend to increase its waste acceptance at the site to 20,000 tonnes per annum. There will be no change to site infrastructure, buildings, plant or equipment.

This application relates to the company's existing waste transfer station. The maximum annual intake will be 20,000 tonnes of non-hazardous household, commercial and industrial and construction and demolition waste. It is proposed to add to the Third Schedule Activities to include D13 and to the Fourth Schedule Activities to include R3, R11 and R12 as described herein.

The classes of activity applied for in accordance with the Waste Management Acts 1996 to 2011 are as follows:

**Third Schedule: Waste Disposal Activities**

D 13 Blending or mixing prior to submission to any of the operations numbered D 1 to D 12 (if there is no other D code appropriate, this can include preliminary operations prior to disposal including pre-processing such as, amongst others, sorting, crushing, compacting, pelletising, drying, shredding, conditioning or separating prior to submission to any of the operations numbered D1 to D12).

D 14 Repackaging prior to submission to any of the operations numbered D 1 to D 13.

D 15 Storage pending any of the operations numbered D 1 to D 14 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

**Fourth Schedule: Waste Recovery Activities**

R 3 Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes), which includes gasification and pyrolysis using the components as chemicals.

R 4 Recycling/reclamation of metals and metal compounds.

R 5 Recycling/reclamation of other inorganic materials, which includes soil cleaning resulting in recovery of the soil and recycling of inorganic construction materials.

R 11 Use of waste obtained from any of the operations numbered R 1 to R 10.

R 12 Exchange of waste for submission to any of the operations numbered R 1 to R 11 (if there is no other R code appropriate, this can include preliminary operations prior to recovery including pre-processing such as, amongst others, dismantling, sorting, crushing, compacting, pelletising, drying, shredding, conditioning, repackaging, separating, blending or mixing prior to submission to any of the operations numbered R1 to R11).

R 13 Storage of waste pending any of the operations numbered R 1 to R 12 (excluding temporary storage (being preliminary storage according to the definition of 'collection' in section 5(1)), pending collection, on the site where the waste is produced).

The principal activity will be R5 of the Fourth Schedule. A copy of this application and any further information relating to it as may be furnished to the Agency in the course of the Agency's consideration of the application will, as soon as is practicable after receipt by the Agency, be available for inspection or purchase at the Headquarters of the Environmental Protection Agency, PO Box 3000, Johnstown Castle Estate, Co. Wexford.
