Dear Caroline,

further to our recent telephone conversation pertaining to the recent fire at Panda Waste(trading as Nurendale). As you are aware said company are currently awaiting a decision from your office for a revision to their existing licence W0140-04.

As a result of the fire at said company our area was engulfed in thick black smoke for 4,days due to the toxic omissions from the R.D.F. waste stored at said facility.

No consideration was given by either the e.p.a or the company to the families living in the surrounding area. The local school where a large number of children attend were not advised to keep the children indoors on Thursday and Friday of last week when the fire was at its most critical stage.

I would like once again to stress my opposition to the revision of the current waste licence to enable said company to operate a Bio-gas facility. It is clearly obvious to all concerned that as a result of the recent fire there has to be questions asked pertaining to said companies adherence and compliance to the safety and health of residents.

Was said company compliant under the terms and conditions of their current licence pertaining to the conditions imposed by the e.p.a.?

Thanking you in anticipation.

Yours sincerely,  
Marie & Leo Dunne.

Fire at Panda Waste Services facility in Beuparc, Co. Meath Date released: Jun 14 2012, 12:51 PM

The EPA was notified this morning of a fire at Panda Waste Services facility in Beuparc, Co. Meath. The Fire Service is in attendance at the site since the early hours of this morning and will remain on site until the fire is completely extinguished. The fire broke out on the Refuse Derived Fuel (RDF) production line involving a quantity of baled RDF.

The EPA is also in attendance and is liaising with the Fire Services. Firewater is being retained and dealt with on site and the EPA is continuing to monitor the situation.

Nurendale Ltd t/a Panda Waste Service Ltd hold a Waste Licence Registration No. W0140-03 for the operation of a waste transfer station and recycling facility at their facility in Beuparc, Navan, Co. Meath.
