09 August 2012

Reg No: P0269-02

Dear Mr Loftus,

I refer to the review of your Integrated Pollution Prevention and Control (IPPC) licence, which was initiated on the 29th September 2011.

I am to advise that in accordance with the provisions of Section 90(7) of the EPA Acts 1992 to 2011, you are requested to supply the following additional information so that the Agency may complete a comprehensive assessment:

- Submit to the Agency all available monitoring data for surface water discharge monitoring as required under *Schedule 4(i) Surface Water Discharge Monitoring* in the current licence from 2010 and 2011.
- Provide a drawing showing all surface water emission points and all surface water monitoring locations from the site. Include grid reference numbers and labels for all points/locations.
- Describe treatment (if any) of surface water coming from the site before it reaches the receiving water.
- State the current grid reference numbers for SW-1 for both outlet and monitoring locations.

In the circumstances you should make immediate arrangements to have the required information (1 signed original, 1 hardcopy and 2 copies of all files in electronic searchable PDF format on CD-ROM) submitted to the Agency without delay. Your response to this request should be directed to Noeleen Keavey, Administration Officer, Office of Climate, Licensing & Resource Use.

It should be noted that where there is failure to comply with the above requirements within two weeks of this notice, the Agency may proceed with its consideration of this review in the absence of the information requested.

Yours sincerely,

Orla Harrington, Office of Climate, Licensing & Resource Use

Note: Any *telephone enquiries* in relation to the above should be directed to **Orla Harrington** at 021 4860832. All *written communications and replies* should be directed to Noeleen Keavey, Office of Climate, Licensing & Resource Use, EPA, PO Box 3000, Johnstown Castle Estate, County Wexford.
