RE: Scoping for Proposed Planning Application and associated Environmental Impact Statement (EIS) in relation to a Waste Licence Review Application (W0113-04) to the Environmental Protection Agency for KMK Metals Recycling Ltd, Cappincur Industrial Estate, Daingean Road, Tullamore, Co Offaly.

Dear Mr Connolly,

I am writing to you in relation to an existing waste licence review application for KMK Metals Recycling Ltd, submitted to the Environmental Protection Agency on the 20-10-2009 for an existing hazardous and non hazardous metals and waste electrical and electronic equipment (WEEE) waste management facility at Cappincur Industrial Estate, Daingean Road, Tullamore Co. Offaly.

Upon receipt of the waste licence review application accompanied by an Environmental Impact Statement (EIS) at that time, the EPA forwarded copies of the EIS to both the planning section and sanitary division of Offaly County Council.

KMK Metals received a letter dated 12th January 2012 from the EPA licensing section seeking further information and in particular requesting various planning related details/matters to be clarified, most importantly, the following;

State whether planning permission is in place or is required for all proposed developments and activities that are currently before the Agency – for example, but not limited to:

- i. Proposed increase in waste acceptance to 35,000 tonnes per annum; and*
- ii. Installation of new WEEE processing equipment and associated dust emission point.*

ENVIROCO Management Ltd wrote to the planning section of Offaly County Council in relation to the EPA request. A letter was received on the 20th February 2012 from Offaly County Council and a copy is attached. The letter states that a planning application together with an Environmental Impact Statement (EIS) is required for the proposal detailed in I and II above.

ENVIROCO Management Ltd, an environmental consultancy company in Tullamore, is therefore currently working on the preparation of the Planning Application and associated Environmental Impact Statement (EIS) for submission to Offaly County Council.

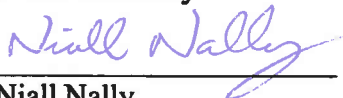

The waste licence facility site location is indicated on the attached map. KMK Metals Recycling Ltd, is operating as an existing hazardous and non hazardous metal waste and electrical and electronic waste transfer facility in accordance with their existing waste licence (ref: W0113-03). The site has been in operation since 1985 at this location. KMK Metals Recycling Ltd wishes to have their existing licensed annual waste acceptance tonnage increased from 20,000 tonnes to 35,000 tonnes per year in order to provide for future business growth and business expansion at the company. The types of waste will remain the same i.e. metallic wastes and waste electrical & electronic equipment (WEEE). All waste accepted to the site is for recycling and recovery only.

The site covers an area of approximately 1.27 Ha (12,733m²). The site yard areas are covered with concrete and buildings. The existing waste management facility is located in an existing Industrial Estate and is approximately 1km east of Tullamore town. The Industrial Estate is surrounded by zoned industrial land with some once off rural housing close by along the Daingean road.

As part of the scoping process for this application we wish to inform you of the application and address any queries that you may have in relation to the proposed site activities.

The Environmental Impact Statement will thoroughly address all possible environmental impacts of the proposed development may have on the surrounding environment. We would welcome any input or comments that the Offaly County Council Environment Section may have in relation to this application, to ensure that these can be addressed prior to submission to the Planning Authority as part of the proposed planning application.

Yours Sincerely

Re: KMK Metals Recycling and Environmental Impact Assessment (EIA)

Dear Sir/Madam,

I refer to your letter dated 10/2/2012 and wish to advise in relation to query 12 of the E.P.A.'s request for further information that, as the proposed development (subject of Waste Licence review WO113-04 and correspondence dated 12/1/2012 from the E.P.A.) involves increasing waste received past thresholds for an EIS, a planning application with an EIS is required.

Please note that as Offaly County Council was only a referral body in relation to the Waste Licence review application in October 2009, no Environmental Impact Assessment (EIA) would have been carried out by Offaly County Council.

Yours faithfully,

Administrative Officer,
Planning Section.
