Ms. Emer Cooney,
IPC Enforcement Administration
Licensing and Control Division,
The Environmental Protection Agency,
Headquarters,
P.O. Box 3000,
Johnstown Castle Estate,
Wexford.

Register No.: 269
Company Name: Basta Parsons Ltd.
Reporting Period: July-December 2002
Required Submission Date: December 2002
Report Name: Emissions to Atmosphere

Dear Ms. Cooney,

Please find attached the monitoring results for the above referenced month and licence. A summary of compliance with I.P.C. licence conditions is as follows:

Were all monitoring results compliant with the terms of the I.P.C. licence?

YES NO

A report on non-compliance(s) is attached.

If you require any additional information, please do not hesitate to contact me.

Yours sincerely,

Pete Murtagh
Environmental Engineer
19/12/02

Additional Information:

Foundry Upgrade:

Please note that the results enclosed are those for the new emission point from the foundry in Basta Hardware Ltd, referred to in the letter 'Changes to the foundry at Basta Hardware Ltd.', dated 12/03/'01. The two old stacks, A2-1 & A2-2, have been decommissioned, and have been replaced with a single stack, which is the emission point from the new furnace in the foundry. This new emission point is referred to as A2-1 in the attached report.

We are aware that an amendment must be made to our licence regarding this change and are awaiting your response.
