Nurendale Ltd trading as Panda Waste Services Ltd.
Cappagh Road
Finglas
Dublin 11

28/10/2011

Our Ref: W0261-01/ak03NH

Dear Mr Naughton,

I refer to your correspondence dated the 19th October 2011 and our conversation of the 27th October 2011 regarding a request to increase the maximum waste quantity that may be accepted at Waste Licence Reg. No. W0261-01.

I am to inform you that the proposal as submitted cannot be accommodated under condition 1.2. as the 'Stage 2' infrastructure as identified in the waste licence has not yet been installed. In the absence of the identified 'Stage 2' infrastructure any proposed increase in waste quantities above 50,000 tonnes per annum would require consideration by way of a technical amendment or a review of the existing waste licence.

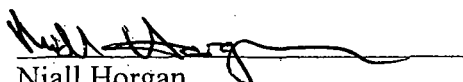

I therefore advise you to write to the EPA's Office of Climate Change, Licensing & Resource Use at PO Box 3000, Johnstown Castle Estate, Co. Wexford to request a decision as to whether the proposal can be considered under a technical amendment or if a review of the licence is required.

Please provide the following in your letter to the Office of Climate Change, Licensing & Resource Use:

- Details of the requested change(s).
- Reasons for the change(s) requested.
- Details of any increase or changes in emissions resulting from the change(s).
- An assessment of the likely impacts of any increase/changes in emissions.
- Please also enclose a copy of this letter for their reference.

Please quote the above reference in any future correspondence to the OEE in relation to this matter. If you have any further queries please contact Niall Horgan at 01-2680100.

Yours sincerely

Niall Horgan
Office of Environmental Enforcement
