**Re: Confirmation from Planning Authority that an EIS was not required in relation to planning reference SD12A/0169**

Dear Ms Desmond,

I refer to your recent planning application register reference SD12A/0169, final grant date 12<sup>th</sup> November 2012. An Environmental Impact Statement (EIS) was not required to accompany this application under Schedule 5 of the Planning and Development Regulations 2001 (as amended). No part of this schedule triggers the need for an Environmental Impact Statement. Furthermore, the Planning Authority considered that the proposed development would not have significant effects on the environment and so therefore a sub-threshold EIS was not requested.

Yours faithfully,

  
J. Johnston  
Senior Executive Planner
