Re: Pat Ryan, Ballyfaskin Enterprises Ltd

Dear Pamela,

Point 1 Environmental Impact Statement

- (i) The EIS submitted with the Application has been replaced by the EIS submitted with the planning application (12/306) and is attached.
- (ii) The EIS was accepted by the Planning Authority following further Information request as the Planning Permission was granted.

Point 2 The new development is part of the License Application

- (A) The spread sheet attached Tank Volumes and Slurry Volumes shows the existing and proposed tank and slurry volumes. The spread sheet also includes number of farrowing sows, dry sows, boars, gilts, weaners and fatteners that will be housed on site.
- (B) The increase in number will occur over a time and is not expected to reach full capacity until Q2 2015.
- (C) Attachment C001 And C002 show the existing and proposed operation and boundary.
- (D) See A above
- (E) The current system employed by the piggery operation is retention of a copy of the N & P statements and submission to the Department of Agriculture under the GAP Regulations

(F) The Current and expected annual usage of animal feed, electricity, heating oil and water are

Item	Current Usage	Proposed Usage	Units
Electricity	210,000	320,000	Kw/year
Animal Feed	5,200	8,000	Tonnes/year
Heating Oil	10,000	15,000	Litres/year
Water	15,500	24,000	m ³ /year

(G) The Drawing P Ryan (GW and SW) shows the location for the surface water discharges from the site.

I will update the section of the license application on surface water discharge later today and email to you.

Please contact me if you require further information on the matter.

Yours sincerely

Trevor Montgomery, Post Grad Dip, BSc, Dip Mgmt, Dip Poll Ass & C,
Cert Envgn Mont, Cert HSWW
Environmental and Health & Safety Consultant.
