RE: Application for the Review of Waste Licence Reg. No. W0104-02 Advanced Environmental Solutions (Ireland) Ltd, Cappancur, Tullamore, County Offaly

Dear Sir / Madam,

On behalf of Advanced Environmental Solutions (Ireland) Ltd, I enclose one original and one hard copy of an application to review Waste Licence W0104-02. I also enclose 16 copies on CD-Rom in PDF searchable format. The content of the electronic files is a true copy of the original application form.

The purpose of the application is to

- a) amend Schedule A of the Licence to increase the total amounts of waste that can be accepted annually from 50,000 tonnes to 60,000 tonnes,
- b) remove the authorisation to accept hazardous waste, and
- c) amend Condition 3.17 to allow for the future discharge of treated sanitary and trade effluent from the on-site wastewater treatment plant to the municipal foul sewer.

The grounds for amending Schedule A is to allow AES to meet customer service requirements in the Midland Region. The grounds for amending Condition 3.17 is to facilitate the future discharge of treated effluent from the on-site wastewater treatment plant to the municipal foul sewer, thereby eliminating the need to tanker the effluent to an off site wastewater treatment plant.

The application includes the completed Application Form, supporting Attachments, and the application fee of €16,000

Yours sincerely,

  
Jim O'Callaghan
