

*Extract from the Minutes of the 739th Licensing Meeting of the Environmental Protection Agency,
held on 2 July 2013
at EPA Headquarters, Johnstown Castle Estate, Co Wexford.*

1. The 739th Licensing Meeting of the Agency was held on, 2 July 2013, in EPA Headquarters, Johnstown Castle Estate, Co Wexford.

Directors Present: D Lynott (Chair).
M Ó Cinnéide.

4. **Recommended Decision on an Application for a Waste Licence**

Licensee: **Country Clean Recycling Limited
Churchfield Industrial Estate
John F. Connolly Road
County Cork**

Register of Licence No: **W0257-01**

The Directors considered a recommendation from the Office of Climate, Licensing and Resource Use that the Agency approve the Recommended Decision to grant a Waste Licence. The following documentation was submitted: Recommended Decision; one Third-Party Submission; the Report of the Inspector dated 20 June 2013; and the EIS Report submitted as part of the application.

A copy of the licence application was available electronically.

Brian Meaney gave a verbal presentation.

Inspector's Report

The Directors noted the Inspector's Report.

Recommended Licence

Table of Contents

Conditions

3.20.3 Clarify whether the Class I Interceptor and the hydrobrake are in place, or is a requirement of Cork City Council. If not, consider replacing the Class I interceptor with a Class II interceptor.

The Directors considered that the Environmental Impact Assessment (EIA) contains a fair and reasonable assessment of the likely significant effects of the licensed activity on the environment. The assessment as reported is adopted as the assessment of the Agency. Having regard to this assessment, the Directors agreed that the proposed activity, if managed, operated and controlled in accordance with the licence will not result in the contravention of any relevant environmental quality standards or cause environmental pollution. The Agency is further satisfied that it has adequately considered the interaction of the likely effects identified and cumulative impacts.

Following discussion, the Directors decided to grant a licence, as modified, to Country Clean Recycling Limited, for their facility at Churchfield Industrial Estate, John F. Connolly Road, County Cork, Register of Licence No W0257-01, subject to the conditions as set out in the licence.

Hi Micheál,

In Dara's absence, Brian Meaney has suggested passing the requested clarification for Country Clean Recycling Limited (W0257-01) on to you for consideration.

Below is the clarification e-mail I had sent to Dara in relation to the interceptor associated with this facility.
I would appreciate if you can consider this.

Regards
Stuart

Subject: Clarification on Country Clean Recycling Limited W0257-01

Hi Dara,

The Board have requested clarification on the status of the interceptor at the Country Clean Recycling Limited facility.

Condition 3.18 (ii) of the W0257-01 RD refers to the interceptor on the storm water discharge from yard areas and reads:

"An oil separator on the storm water discharges from yard areas. The separator shall be a Class I by-pass separator."

The requirement for the installation of an oil interceptor for the run-off from yard areas is included in the recent planning permission from Cork City Council, in relation to the expansion of the existing facility (T.P. 09/33682). The specific planning permission condition states that "Runoff from yards shall be routed through a suitable bypass interceptor/silt trap in accordance with IS EN 858-2:2003...". This interceptor is not currently in place.

As the run-off from yard areas discharge to Cork City Council's storm water sewer, it is appropriate for the oil separator to be Class II rather than Class I. Therefore I consider it appropriate for Condition 3.18 (ii) to be amended, as requested by the Board, to read:

"An oil separator on the storm water discharges from yard areas. The separator shall be a **Class II** by-pass separator."

Please advise if you require any further clarification.

Regards
Stuart
