Waste Licence Application re: KMK Metals Recycling Limited at Cappincur Industrial Estate, Dainean Road, Tullamore, Co Offaly

Dear Mr. McGuire,

I am to inform you in accordance with Article 18(3) of the Waste Management (Licensing) Regulations, that additional information relevant to the EIS has been received by the Agency on 3 July 2013. A copy of the additional information is enclosed for your information.

I am to advise you that any person may make a submission to the Agency, in writing, in respect of the application, pursuant to Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations

Submissions to the Agency regarding applications

15. For the purpose of Section 40(2)(b) of the Acts, a person may make a written submission to the Agency in relation to -
- (i) an application, and
 - (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with Articles 12, 13, 14 and 16,
- and the Agency shall not give notice of a proposed decision under Section 42(2) of the Acts before the expiry of a period of one month following the date of a relevant -
- (a) acknowledgement in accordance with Article 14(2)(a), or
 - (b) notice in accordance with Article 16(2)(a), or
 - (c) acknowledgement in accordance with Article 16(4),
- whichever such date is the later.

The Agency will have regard to any submission made in accordance with the Regulations and will write, in due course, to each person who makes such a submission, to advise them of the Agency's proposed decision on the application.

Please note that there is no requirement for you to acknowledge receipt of this letter.

Yours sincerely

N. Keavey

Waste Licence Application

Name & Address of Applicant: KMK Metals Recycling Limited
Cappincur Industrial Estate
Tullamore, Co. Offaly

Location of Facility: Cappincur Industrial Estate
Tullamore, Co. Offaly

Reference number: W0113-04

Comments:

Further information has been received regarding stack emission point A2-8. The further information states that the emissions are controlled by using a cyclone abatement plant which functions by screening out larger dust particles from the incoming air with the air containing fine dust particles being blown out for further treatment using the existing bag house filter system.

Monitoring of these emissions as required by the terms of the licence will determine the effectiveness of the system
