

Memo

DATE: 19th August 2013

TO: Brian Meaney, Senior Inspector, OCLRR Licensing Programme

FROM: Damien Masterson, Inspector, OEE

C.C. Noel Byrne, OEE and Breege Rooney, OEE

SUBJECT / LICENSEE: W0156-01 KTK Sand and Gravel – Request to amend facility boundary

In relation to the licensee's request for a Technical Amendment to Waste Licence W0156-01 to amend the boundary to exclude a section of the existing licensed facility, the control and ownership of which has been transferred to Kildare Co. Council, OEE Licence Enforcement comments as follows:

1. On the basis of the information provided by the licensee in support of the Technical Amendment request and the findings of an Inspection by OEE personnel on 16/07/2013, there appears to be no issues of residual environmental pollution related to the section of the licensed site concerned.
2. OEE considers therefore that there is no reason why the amendment of boundary should not be granted.

A handwritten signature in black ink that reads 'Damien Masterson'.

Name: Damien Masterson
Title: Inspector
Office of Environmental Enforcement
