Subject: IED Declaration W0136-03
Importance: High

Dear Patrick,

I refer to waste licence review application W0136-03 and a previous declaration relating to the revised First Schedule of the EPA Acts 1992 to 2013.

I wish to confirm that in addition to Class 11.4 (b) (ii), Class 11.1 also applies and the reasons for this are as follows:

Class 11.1 applies as the MRF is (and will continue to be) involved the recovery of a range of different waste types (paper, cardboard, plastics, timber, metals, concrete/bricks/tiles) for treatments other than those scheduled as IED activities.

I trust that the previously submitted declaration can now be updated to reflect this.

Regards,

Malcolm
