18. Report on financial provision made under this licence, management and staffing structure of the facility, and a programme for public information
19. Use of the quarantine store for rejected waste
20. Report on rejected waste - handling and final disposal
21. Process efficacy - microbiological inactivation and disintegration of healthcare risk waste
22. Monitoring of emissions and processed healthcare risk waste
23. Any other items specified by the Agency

ANNUAL ENVIRONMENTAL REPORT

SORUNDON LIMITED

(JAN 13 TO DEC 13)

Introductory Comment:

Since the relocation of Irish Environmental Services in October 2007, the waste transfer station has been unused. From January 2013 to December 2013 no wastes were stored in the building and no environmental impacts were therefore recorded.

No decision has yet been taken as to future use of the facility and it is proposed to maintain a dormant licence.

1. Reporting Period

Sorundon Limited is headquartered at the following location:

520 Beech Road Western Industrial Estate Naas Road Dublin 12

The waste licence register number is W0040-01 and this reporting period stems from Jan 01 2013 to Dec 31 2013.

1.1 . Location of Facility

Sorundon Limited hold Waste License no W0040-01 and the facility is located in Western Industrial Estate, Dublin 12. National Grid Reference: 309208E 231327N.

The facility is adjacent to the M50 motorway and the Naas road (N7), with the surrounding area zoned for industry consisting of various warehouses and other industrial units and access roads.

2. Waste activities carried out at the facility

From October 2007 to December 2013 there has been no waste activity carried out at the site.

3. Quantity and Composition of waste received and disposed/recovered for the year 2013.

Nil

4. Waste sent off site for recovery or disposal

Nil

5. Summary report on emissions

This section is not applicable as there are no direct or indirect emissions to the environment, the groundwater of the local environs.

6. Summary of results of environmental monitoring, including monitoring locations.

Environmental monitoring was not carried out as the asbestos activities on site had ceased.

6.1 Asbestos Monitoring

As above

6.2 Noise Monitoring

Due to inactivity at the site no noise monitoring was conducted.

7. Resource and Energy Consumption

Nil

8. Proposed development of the site and timescale of such development

There has been development of the site in the year 2013 and there are no proposed developments for 2014.

9. Report on development works undertaken during the reporting procedure and those proposed during the coming year

There is no other development proposed for the site during 2014.

10. Estimated Annual & Cumulative quantity of indirect emissions to the groundwater

There are no activities or emissions from the site.

11. Schedule Environmental Objectives and Targets for the forthcoming year: 2014

This section is not applicable as the operation of the Transfer Station activities have ceased under this license.

12. Report on the progress towards achievement of the Environmental Objectives and targets contained in the previous year's report.
