re: Request for Technical Amendment to Licence Reg No. D0202-01

Dear Mr O'Friel

I am to refer to the above referenced waste water discharge licence relating to agglomeration named Mitchelstown.

I have received information from the Office of Environmental Enforcement which requests that 'an amendment to the emission limit values within the licence to enable the compliance sampling point be moved to a location post the WWTP and pre the confluence within the Dairygold effluent'.

Please submit a request for a Technical Amendment with the details necessary to enable such a request to be carried out.

The information should include:

- Details of the areas within the licence that require amendment
- Details of any proposed new monitoring/sampling points
- Clearly annotated map/drawing of new monitoring/sampling points

Please supply the information in the form of a one original plus one copy. Please note that all maps/drawings should not exceed A3 in size. Please direct all correspondence in relation to this matter to *Administration, Environmental Licensing Programme, Office of Climate, Licensing & Resource Use, Environmental Protection Agency, Headquarters, PO Box 3000, Johnstown Castle Estate, County Wexford* quoting the register number.

Yours sincerely,

Marie O'Connor
Senior Inspector
Office of Climate, Licensing & Resource Use

Please file with TA for

D0202-01
