

Memo to the Licensing Programme Unit (OCLR)

Request for Amendment to a Waste Water Discharge Licence

	<p>An amendment to the Mitchelstown. (D0201-01) waste water discharge licence was agreed following consultations between the OEE and OCLR. This amendment to the licence is being forwarded to the Licensing Programme Unit in OCLR for comment and to progress with the licensee as appropriate.</p>
<p>Local Authority</p>	<p>Cork County Council (CCC)</p>
<p>Agglomeration Licence Register No.</p>	<p>Mitchelstown. D0201-01</p>
<p>Details of the request for an amendment to the waste water discharge licence</p>	<p>The primary discharge from the Mitchelstown Waste Water Treatment Plant (WWTP) is to the River Funshion. Effluent from the WWTP combines with treated effluent from the Dairygold IPPC site prior to discharging to the river.</p> <p>The current compliance monitoring sampling location is post the confluence of effluent from the WWTP and the Dairygold IPPC site, as the emission limit values in the discharge licence are based on the combined discharge.</p> <p>The reason for the technical review is to request an amendment to the emission limit values within the licence to enable the compliance sampling point be moved to a location post the WWTP and pre the confluence with the Dairygold effluent.</p>
<p>Details on any meeting with the licensee on the issues</p>	<p>N/A</p>
