Re: EPA Waste Licence Application – Further Information Response
Ref: W0285-01

Dear Ms. Murphy,

With regard to your correspondence dated 18th February last with respect to the Article 13 compliance requirements, I write to confirm that the EPA have the copy of the Environmental Impact Statement provided to the Planning Authority as part of the original application and there are no changes to the proposed development that have been made since the grant of Planning Permission.

The change in revision no. to the front of the EIS reflects the extra information that was required during the planning application process as part of a further information request.

Trusting this to be in order, if there are queries please don't hesitate to contact me.

Yours sincerely,
