Re: Indaver Ireland (Licence ref WO167-03) Response to Notice for the purposes of Section 76A(3) of the Waste Management Act, as amended

Dear Sir/Madam,

Further to the Agency correspondence dated 19th February 2014 as referenced above, which related to the ongoing review of Waste Licence WO167-03 and the requirement for information under Regulation 9 of the EPA (Industrial Emissions)(Licensing) Regulations 2013 (and amendments to Part IV of the Environmental Protection Agency Act 1992 set out there in), Indaver Ireland wish to advise that our application will be submitted tomorrow the 3rd April 2014.

Though it was our intention to submit our application today the 2nd April 2014, as requested in the Agency correspondence, the newspaper notice relating to the application will not be published until tomorrow. We will submit the application directly tomorrow as soon as we have obtained a copy of the newspaper notice.

We will also submit additional information regarding a proposed alteration to the activity, in the context of the ongoing Waste Licence review process, now required to be assessed under Part IV of the Act of 1992. The newspaper notice includes a description of this proposed alteration.

Yours sincerely,

Jane Hennessy
Communications Manager
